Pre-hui

The premise of the hui was to undertake site visit to Kaitaia WWTP

Notes:

Site Visit Hui commenced at 10:00am

Site Visit

- Regan Jones (operator) from Ventia hosted tangata whenua for a site visit.
- Visitors were provided a health and safety induction
- Visitors walked the site with operator and he provided an overview of the site and how it works.
- Tangata whenua enquired on wastewater process, and a robust discussion was held on what is working well onsite, and what isn't.
- Tangata Whenua were concerned that works may not be completed, if not written into the consent as options to be further assessed. FNDC agreed to alter the consent conditions to reflect.
- Operator presented the location of the missing flow meter, and described the next steps to implement replacement parts.
- Operator agreed to host remaining tangata whenua who gave apologies today on a future site visit.
- All visitors thanks Regan for the site visit.
