This application is made under Section 88/Section 127 of the
Resource Management Act 1991

To: The Secretary
Northland Regional Council
Private Bag 9021
Whangarei 0120

IMPORTANT NOTES TO THE APPLICANT

Please read the notes below.

Your application must include an Assessment of Effects on the Environment. This form and the associated Information Requirement Booklet will help you prepare it.

Depending on the location, quantity and intended use of the groundwater to be abstracted from the bore, you may require a Resource Consent to take groundwater from the Northland Regional Council.

When siting your bore you should consider the location in terms of compliance with the Rules permitting abstraction in the Regional Water and Soil Plan for Northland. You should also consider any effects on water levels in neighbouring bores. Such effects may influence the likelihood of obtaining a Consent to take groundwater at the volume you require. It is strongly advised that you apply for any necessary Consent to take groundwater at the same time as a Consent to alter or install your bore.

If you are not sure if you need a Consent to take water from your bore, please check with the appropriate staff at the Northland Regional Council.

The granting of a Resource Consent – to make, alter or install a bore does not guarantee or imply any of the following:

- (1) That the bore is suitable for the purpose required.***
- (2) That the bore will penetrate water-bearing material.***
- (3) That the Consent Holder will have access to any water in the bore, either physically (in terms of access) or legally (in terms of authorisation).***

A. General

Full Name & Address of Applicant: <i>(in full, eg. Albert William Jones, and Mary Anne Jones or full registered Company Name)</i>	
	
	
	
Applicant's Contact Details:	Business: Home:	Fax: Mobile:

Property Owner's Name and Address (if different): <i>(in full, eg. Albert William Jones, and Mary Anne Jones or full registered Company Name)</i>	
	
	
	
Property Owner's Contact Details:	Business: Home:	Fax: Mobile:

Name & Address of Driller or Person Carrying out the Works:	
	
	
	
Driller's Contact Details:	Phone: Email:	Fax: Mobile:

B. Location of the Proposed Drilling Activity

Street Address:	
Legal Description:	
Map Reference:	
Occupier of Land:	
Telephone:	

Attach a property plan that clearly indicates the location of the following:

- site of proposed drilling activities,
- roads, property boundaries, fences, buildings and other structures,
- springs, streams, rivers, lakes and saltwater bodies within 500 metre radius of the proposed bore,
- any other bores on your property, neighbouring properties, and distance between bores, within 500 metres of the proposed bore,
- any potential contamination within 200 metres of the proposed drilling activities and the location of any septic tank and/or soakage fields.

C. Description of Proposed Drilling Activities

C.1 Number of bores associated with the proposed drilling activities?

C.2 What will the bore be used for? *(tick appropriate box)*

- | | | |
|---|--|---|
| <input type="checkbox"/> Domestic | <input type="checkbox"/> Stock | <input type="checkbox"/> Community Water Supply |
| <input type="checkbox"/> Irrigation | <input type="checkbox"/> Industrial/Commercial | <input type="checkbox"/> Monitoring/Exploratory |
| <input type="checkbox"/> Other, provide details _____ | | |

C.3 How much water will be taken from the bore(s)?
(ie. cubic metres per day, and litres per seconds)

C.4 Do the proposed drilling activities relate to an existing bore?

- No. Go to C.5
- Yes, provide reference number(s) and/or a description of the existing bore below then go to C.6

C.5 Details of Works Associated with the Installation of NEW BORE(S)

Bore Diameter (mm): _____

Est. Bore Depth (m): _____

Est. Casing Depth (m): _____

Est. Depth to Top of Screen (m): _____

Est. Depth to Bottom of Screen (m): _____

Casing Material
(if using PVC, state grade): _____

Screen Material: _____

Proposed Grouting Length: _____

Aquifer (if known): _____

C.6 Details of Alterations to EXISTING BORE(S)

Existing Bore Diameter (mm): _____

Existing Bore Depth (m): _____

Existing Casing Depth (m): _____

Existing Depth to Top of Screen (m): _____

Existing Depth to Bottom of Screen (m): _____

Existing Casing Material
(if using PVC, state grade): _____

Existing Grouting Length: _____

Aquifer (if known): _____

Details of Alteration Proposed _____

C.7 Have applications been made for any other resource consents that are required in relation to this resource consent to make, alter or install a bore? (eg. Consent to take groundwater) (tick appropriate box)

No

Yes, provide reference number(s) and description of applications:

D. Assessment of Actual and Potential Effects

(tick appropriate box)

- D.1** Are the proposed activities within 20 metres of a known contaminated site? Yes No
- D.2** Are the proposed activities within 20 metres of any stored chemicals, fuels, oils or potential contaminants? Yes No
- D.3** Are the proposed activities located within 50 metres of any existing bores on neighbouring properties? Yes No
- D.4** Are the proposed activities in an area known to have flowing/artesian characteristics? Yes No Unknown
- D.5** Are the proposed activities in an area of unconsolidated or semi-consolidated geology ie. sand, gravel? Yes No Unknown
- D.6** Are the proposed activities located within an aquifer that is susceptible to saltwater intrusion? Yes No Unknown
- D.7** Will the proposed activities result in the mixing of water from different water bearing layers? Yes No Unknown
- D.8** Are the proposed activities located in an historical place, recorded archaeological site, or in an area of cultural and spiritual significance to Tangata Whenua? Yes No Unknown

D.9 When is the proposed drilling to start?

(allowing at least one week for processing of the application)

Where the bore could have a significant effect on the environment, a detailed Environmental Assessment may be required. You should discuss this requirement with the appropriate staff at the Northland Regional Council.

E. Consultation

Have you consulted with any of the following potentially affected parties:

	Yes	No
Property Owner (if different from the Applicant)	<input type="checkbox"/>	<input type="checkbox"/>
Neighbours	<input type="checkbox"/>	<input type="checkbox"/>
If the groundwater take is for purposes other than domestic use, groundwater users within 50 metres of the proposed drilling activity	<input type="checkbox"/>	<input type="checkbox"/>
Local iwi (specify): _____	<input type="checkbox"/>	<input type="checkbox"/>
Other (specify): _____	<input type="checkbox"/>	<input type="checkbox"/>

Attach a record of the consultation taken place. The Northland Regional Council can supply you with written approval forms to aid you with this consultation.

Please note written approval from potentially affected parties must be obtained in order to process your application within five (5) working days.

Application Fee / Deposit enclosed

\$

F. Signature of Applicant or Driller

I declare that, to the best of my knowledge and belief the information given in this application is true and correct.

Signature: _____

Date: _____

Full Name (*print*): _____

CHECK LIST – HAVE YOU REMEMBERED TO:
