

Visiting a Northland marina this summer?

To prevent the spread of marine pests, Northland marinas require visiting vessels to have been recently cleaned – that means:

Antifouled in the last **Six** months

or

Lifted and washed in the last **One** month

Prove it!

Haul-out receipts, paint receipts – check with the marina what proof is required. Some high-risk vessels may be subject to additional marina requirements.

Coming from risk area?

Beware of unwanted hitchhikers! Making sure your boat is clean before you move is the best way to help stop the spread of invasive marine pests.

Bookings and information
