

PEST CONTROL OPERATION

The Northland Regional Council (NRC) is publicly notifying its intent to carry out a possum and rat control operation from 4th November 2021 – 10th December 2021.

Contractors employed by Northland Regional Council will carry out the operation at Taharoa Domain (Kai Iwi Lakes) using vertebrate toxic agents (diphacinone & cholecalciferol – trade name Double Tap) in bait stations. The domain will remain open during the operation and day visitor and camping facilities will be available.

This work is being undertaken with the approval of the Taharoa Domain Governance Committee and the Kaipara District Council.
