**PART B – ASSESSMENT OF ENVIRONMENTAL EFFECTS**

Your application must include an Assessment of Effects on the Environment. This form and the associated Information Requirement Booklet will help you prepare it.

An assessment of effects is required so that you and others can understand what happens to the environment when you carry out the proposed activity. This will help you to propose ways to minimise those effects to the council's satisfaction.

For applications of a complex nature with considerable effects, a full Assessment of Effects in terms of the Fourth Schedule of the Resource Management Act 1991 is required. Depending on the scale of the proposed activity and the potential effects of the proposal on the environment, a report prepared by a suitably qualified person may be required.

Please note that the word "environment" can include the surrounding coastal water, adjoining land, any surrounding resource users, and local iwi.

It is advised that you make an appointment with a council officer to discuss your application prior to lodging it. This will help you supply all the required information at the onset and ensure the efficient processing of your application.

**A. Description of the Proposed Activity**

A.1 Provide a detailed description of the proposed activity:
