Dear Catherine,

I am writing this letter to inform you that on the Sunday afternoon of the 18th of March 2018 I spoke to the archaeologist working on site not far from the public access to the Motutangi Muriata Pa. He informed me that koiwi had been found on the western side of State Highway One. He also said a lot of animal bone had been uncovered during the earthworks. He added at this point in time he had found no human bone on the eastern side of State Highway One during the current earthworks operation.

Yours Sincerely

Kevin Matthews
