

Protect our divers - use a dive flag

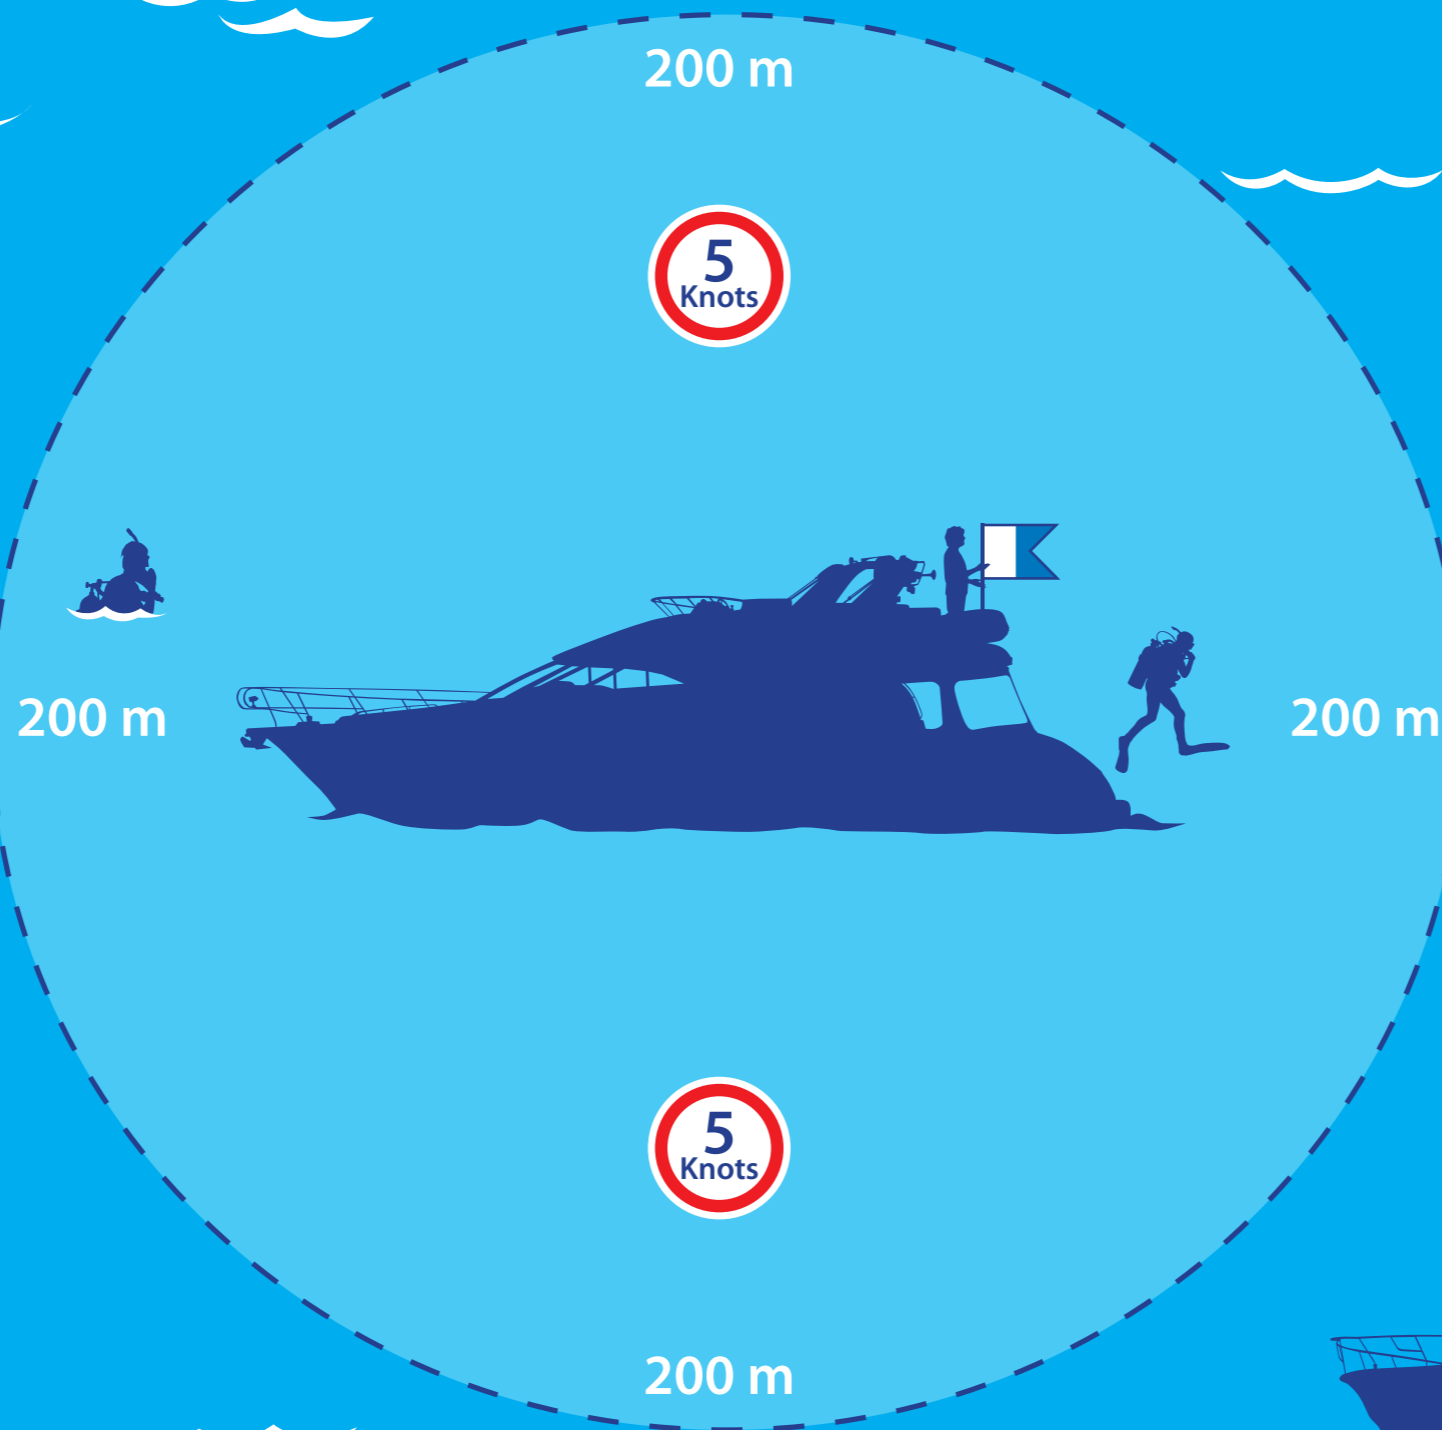

Divers should stay within 200 metres of the vessel showing the flag.

All vessels must display a dive flag whenever there are divers in the water. The skipper must ensure the vessel is within 200 metres of the diver.

How big should a dive flag be?

The flag must be no smaller than 600mm x 600mm. It must be easily identified by another vessel at a distance of 200 metres or more.

Vessels shall observe the 5 knot speed limit around dive flags.
