Charging Policy 2018/19

Introduction

The charging policy is reviewed annually. Fees and charges that require formal adoption under section 150 of the Local Government Act 2002 may be consulted on in conjunction with a Long Term or an Annual Plan. The fees set out in this policy will come into effect on 1 July 2018 and will continue until superseded. A copy of this charging policy will also be published on council's website.

Councils are permitted to collect fees from private users of public resources, and to recover all or a portion of the costs for a range of services it performs in relation to those resources.

The law acknowledges that some of the costs associated with administering the private use of public resources have a community benefit, and should therefore be met from the general rate. For example, the Northland Regional Council (the council) grants resource consents that allow organisations and individuals the private benefit to use public resources such as air, water or the coast. Where the benefits associated with consents are solely to applicants, they pay the associated costs in full. Where the benefits accrue more widely – such as in the case of environmental monitoring – then a portion of the associated costs is met through rates.

This document sets out the policies, fees and charges that are collected by the council from private beneficiaries for a range of services it performs.

The fees and charges set out in this document are consistent with the council's revenue and financing policy, which sets out the funding and cost recovery targets for each council activity.

This document is divided into three sections:

- Part One: General principles and policy.
- Part Two: Policies on charging and fees for specific activities and functions.
- Part Three: Schedule of fees and charges.

Part One: General policies and principles

1.1 PRINCIPLES

1.1.1 Charges must be lawful

The council can only levy charges which are allowed by legislation. Section 13 of the Local Government Official Information and Meetings Act 1987 enables the council to charge for providing information sought under the provisions of the Act or the Official Information Act 1982.

Section 36 of the Resource Management Act 1991 (RMA) enables the council to fix charges for its various functions (refer to Section 2.2).

Section 150 of the Local Government Act 2002 enables the council to fix charges payable under its bylaws (namely the Navigation Safety Bylaw 2017) and charges for the provision of goods, services, or amenities in accordance with its powers and duties, e.g. recovering costs of responding to environmental incidents, and inspecting dairy farms operating under permitted activity rules for discharges to land.

Section 444(12) of the Maritime Transport Act 1994 allows the council to fix reasonable charges for its activities/services relating to "Tier 1 sites".

Section 243 of the Building Act 2004 enables the council to impose fees or charges for performing functions and services under the Act. It also allows the council to recover its costs from a dam owner should we need to carry out building work in respect of a dangerous dam.

Section 135 of the Biosecurity Act 1993 enables the council to recover its costs of administering this Act and performing the functions, powers, and duties provided for in this Act by such methods it believes on reasonable grounds to be the most suitable and equitable in the circumstances.

Under Section 227 of the Property Law Act 2007, the council can require a charge to cover reasonable legal or other expenses of the lesser in giving consent.

1.1.2 Charges must be reasonable

The sole purpose of a charge is to recover the reasonable costs incurred by the council in respect of the activity to which the charge relates. Actual and reasonable costs will be recovered from resource users and consent holders where the use of a resource directly incurs costs to the council. A contribution from the general rate meets a share of the cost where the community benefits from the council performing its role, for example, environmental monitoring. For more information about how the council funds its activities from its various funding sources, please refer to its revenue and financing policy.

Some charges imposed on consent holders are based on the full costs of the council's administration and monitoring of their consents, plus a share of the costs of its state of the environment monitoring activities that relate to the resource used by those consent holders.

1.1.3 Charges must be fair

Charges must be fair and relate to consent holders' activities. The council can only charge consent holders to the extent that their actions have contributed to the need for the council's work.

The council must also consider the benefits to the community and to consent holders when setting a charge. It would be inequitable to charge consent holders for resource management work done in the interests of the regional community and vice versa. We take this into account when setting the proportion of charges we wish to recover for state of the environment and compliance monitoring from an individual consent holder.

Wherever possible, the council will look for opportunities to streamline and improve processes to ensure that consent processing and compliance monitoring functions continue to be cost effective and efficient.

1.1.4 Charges must be uniformly applied

Charges will not vary greatly within classes of activities and within the context of the scale of the activity, except where environmental incidents and non-compliance with consent conditions incur additional supervision costs.

1.1.5 Charges must be simple to understand

Charges should be clear and easy to understand, and their administration and collection should be simple and cost effective.

1.1.6 Charges must be transparent

Charges should be calculated in a way that is clear, logical and justifiable. The work of the council for which costs are to be recovered should be identifiable.

1.1.7 Charges must be predictable and certain

Consent applicants and resource users are entitled to certainty about the cost of their dealings with the council. The manner in which charges are set should enable customers to evaluate the extent of their liability.

Resource users need to know the cost of obtaining and maintaining a consent in order to manage their business and to plan for future growth and development. Charges should not change unnecessarily; any charges must be transparent and fully justified.

1.1.8 The council must act responsibly

The council should implement its charging policy in a responsible manner. Where there are significant changes in charges, the council should provide advance warning and give consent holders the opportunity to make adjustments.

1.1.9 Resource use

The charges in this document support preferred resource use practises which as a consequence require less work to be undertaken by the council.

1.2 GENERAL POLICIES

1.2.1 Time periods

The policies, formulae and charges set out in this document apply each year from 1 July to the following 30 June, or until replaced by new charges adopted during the annual plan or long term plan as prescribed by the Local Government Act 2002.

1.2.2 Annual charges

Annual charges shall apply from 1 July to the following 30 June each year, or until amended by the council.

1.2.3 Goods and Services Tax

The charges and formulae outlined in this document are *exclusive* of GST, except where noted otherwise.

1.2.4 Debtors

All debtors' accounts will be administered in accordance with this policy and outstanding debts will be pursued until recovered.

1.2.5 A minimum annual charge

A minimum annual charge as set out in Section 3.5.1 to all consents other than bore permits, sewage discharge permits for individual dwellings, and new consents granted after 1 March each year when the minimum annual charge will be waived for the remainder of that financial year.

1.3 POLICY ON REMISSION OF CHARGES

1.3.1

Council's fundamental position is that in general, all fees and charges set out in this document are to be met by the person who has invoked the service or activity that the fee or charge relates to (for example, the consent applicant in the case of consent processing services or the consent holder in the case of consent administration, monitoring and supervision services).

1.3.2

The council can fix charges for recovering costs for consent processing, administration, monitoring and supervision services under section 36 of the Resource Management Act 1991. The council can also require the person liable for such a charge to pay an additional charge where the fixed charge is inadequate to recover its reasonable costs in respect to the service concerned (s36(5) RMA). The person receiving the additional charge has the right to object to or appeal the charge under section 357(B) of the Act. The council also has the absolute discretion to remit the whole or any part of a charge made under section 36 (s36 AAB(1) RMA).

1.3.3

Where a person seeks to have any fee or charge set out in this document remitted that person may make an application in writing to the relevant group manager for the remission of the charge setting out in detail the applicant's case which may include financial hardship, community benefit or environmental benefit etc.

1.3.4

Where the application/consent relates to a structure, the remission of any charge will only be considered if that structure is available at no charge for public use.

1.3.5

Existing waivers or remissions issued for charges may be subject to review, as this policy may be reviewed.

1.3.6

Decisions on applications shall be made by the relevant group manager, who may remit a charge in part or full, or decline the application. Decisions to decline the application or remit a charge in part only may be appealed in writing to the Chief Executive.

1.3.7

Where the appeal relates to an additional charge made under section 36(5) of the Resource Management Act, then the appeal shall be treated as an objection under section 357B unless, on being advised of this, the appellant does not wish to pursue the matter further.

1.3.8

Where the appeal relates to a fixed charge made under section 36(1) of the Resource Management Act, then the appeal shall be determined by an appropriately qualified certified RMA hearing commissioner "on the papers" or through a formal hearing, should the appellant wish to appear before the commissioner to support their appeal. The commissioner shall be appointed as per the council's standard procedure for appointing RMA hearing commissioners. The commissioner's decision on the appeal shall be final.

Part Two: Policies on charging and fees for specific activities and functions

2.1 PROVISION OF INFORMATION AND TECHNICAL ADVICE

The council recognises that it has a significant advisory and information role. The council has the right, under legislation, to recover the costs of providing certain information.

2.1.1 Information provided under the RMA – consents, hearings etc.

Pursuant to the Local Government Act, and sections 36(1)(e) and (f) of the Resource Management Act, the council may charge for the provision of information as follows:

2.1.1.1 Reasonable charges will be made to cover the costs of making information and documents available, for the provision of technical advice and consultancy services. These costs will include:

1. Staff costs related to making the information available – i.e., officers' actual recorded time charged at an hourly rate comprising actual employment costs plus a factor to cover administration and general operating costs (refer Section 3.2);
2. Any additional costs incurred, for example, photocopying, printing binding; and computer processing costs – refer to Section 3.10.10.
3. Where an inquiry requires less than 30 minutes of staff time, no staff costs will be charged. Additional costs of less than \$25.00 will not be charged.

2.1.1.2 Consistency, distance, location – all time after the first half hour and any disbursements involved in providing information that confers a private benefit on the recipient(s) shall be recovered by way of invoicing the cost in line with the policy set out above. This policy is consistent with that applied in local government, except when information is requested under the Local Government Official Information Act (refer to Section 2.1.2).

There is no concession for time or distance travelled by the council's officers to provide technical information. No such concession is provided by other technical consultants.

Information given by telephone is to be treated exactly the same as information provided at an interview.

2.1.1.3 Advise the cost in advance – officers must warn the person seeking information in advance, that a cost will be incurred after the first half hour, and the estimated cost per hour to be charged. This process allows the applicant to weigh the value of his/her requirements, and will effectively control the level of information sought and deflect frivolous requests.

The provision of information should be charged separately from the cost of processing any future resource application.

2.1.1.4 Community and environmental groups – where an organisation clearly gains no economic or private benefit for its members from the information sought, then the free time available should be extended to one hour, and be treated on the same basis as requests under the Local Government Official Information and Meetings Act (refer to Section 2.1.2) unless a regulation or plan provides otherwise. Additional time and disbursements may be charged for, as a reasonable control mechanism, to avoid frivolous or indulgent requests at the ratepayers' cost. These requests should be referred to at least a group manager for a decision on charging.

2.1.1.5 Educational information and materials, and consent holders – when council officers are involved in Resource Management Act workshops or public promotions aimed at increasing the public’s awareness of the Resource Management Act consent procedures, the council’s environmental role, liaison on planning issues, etc., there is a benefit to the greater community as well as the people attending. Information provided in this context clearly falls within the educational role of the council and is not charged for.

2.1.1.6 Consent holders – all consent holders are entitled to information arising from the monitoring of their consents, including district councils and other corporate bodies.

Other information sought by district councils is to be assessed on individual merit, and referred to the Group Manager for a decision, to ensure political appropriateness.

2.1.2 Information provided under the Local Government and Official Information and Meetings Act

The Local Government and Official Information and Meetings Act enables the public to have access to official information held by local authorities because this is good for accountability and effective participation. However, official information and deliberations are protected to the extent that this is consistent with public interest and personal privacy. More information about the Act, including how to make a request for information and why it may be declined, is on the Office of the Ombudsman’s [website](#).

Section 13 of the Act provides for the recovery of the cost of making information available under the official information act. However, there are some exceptions to this, e.g. the council cannot charge the Inland Revenue Department for its information requests. The current charges are set out in Section 3.1 of this charging policy.

Note: under Section 13(1) of the official information act the council has 20 working days to make a decision (and communicate it to the requestor) on whether we are granting or withholding the information, including how the information will be provided and for what cost. We will also tell the requester that they have the right to seek a review by an Ombudsman of the estimated charge. If the charge is substantial the requester may refine the scope of their request to reduce the charge. We may request a minimum estimated initial fee to be paid under the information act and the 2002 Charging Guidelines issued by the Secretary for Justice. We will recover the actual costs involved in producing and supplying information of commercial value. In stating our fee schedule we reserve discretion to waive a fee if the circumstances of the request suggest this is appropriate, for example in the public interest or in cases of hardship.

2.2 RESOURCE MANAGEMENT ACT 1991

2.2.1 Introduction

Under Section 36(1) of the Resource Management Act, the council may charge for costs associated with the following:

1. Processing resource consent applications, including requests made by applicants or submitters under Section 100A of the Act,
2. Reviews of consent conditions,
3. Processing applications for certificates of compliance and existing use certificates,
4. The administration, monitoring and supervision of resource consents,
5. Carrying out state of the environment monitoring,
6. Applications for the preparation of, or changes to, regional plans or policy statements, and
7. For providing information in respect of plans and resource consents and the supply of documents (also refer to Section 2.1.1).

2.2.2 Performance of action pertaining to charges

With regard to all application fees and amounts fixed under Section 36(1) of the RMA, the council need not perform the action to which the charge relates until the charge has been paid in full [RMA, Section 36AAB(2)] except if section 36(1)(a)(ii), 36(ad)(ii) or 36(cb)(iv) apply.

2.2.3 Applications for resource consents, reviews of consent conditions, certificates of compliance and existing use certificates

2.2.3.1 Applicants will be charged for the reasonable costs, including disbursements, of receiving and processing applications for resource consents, reviews of resource consent conditions under Sections 127 and 128 of the RMA or Sections 10, 20, 21 and 53 of the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004, certificates of compliance and existing use certificates. These costs include:

a. Minimum estimated initial fee on application as set out in Section 3.2.1 and *Staff Charge Rates* (which are rates derived from actual employment costs plus a factor to cover administration and general operating costs) charged at the relevant hourly rate as set out in in Section 3.2. These are minimum charges for resource consent applications and are charges 'fixed' under Section 36(1) of the RMA (they are therefore not subject to objection rights). All consent processing costs which exceed the minimum estimated initial fee are considered to be additional charges pursuant to Section 36(5) of the RMA and these may be progressively charged on a monthly basis or invoiced at the end of the consenting process. Prior to consideration of the application, the Chief Executive Officer is authorised to require an additional minimum estimated initial fee of up to \$20,000 for complex applications.

b. Hearings – the costs of pre-hearing meetings and hearings will be charged to the applicant. The costs of councillors who are members of hearing committees (panel) will be recovered as determined by the Remuneration Authority. Staff costs and hearing panel members' fees or the reasonable costs of independent (non-councillor) commissioners at formal hearings will be charged.

Charges relating to joint hearings will be apportioned by the authorities involved, according to which authority has the primary role of organising the hearing.

Where a hearings panel has directed that expert evidence is pre-circulated then all persons who are adducing such evidence shall be responsible for providing the prescribed number of copies of such evidence to the council. In the event that the council needs to prepare copies of such evidence the person adducing the evidence will be charged for the copying.

Submitters that request that independent hearing commissioners under Section 100a of the RMA will also be charged a portion of the cost of those hearing commissioners in accordance with Section 36(1)(a)(b).

c. External costs disbursements will also be charged; for example, advertising, legal and consulting advice, laboratory testing, hearing venues and incidental costs.

d. Withdrawn applications are subject to the minimum fees set out in Section 2.2.7.4, Section 3.2.1 or Section 3.4 as appropriate, or the actual costs of the work completed to the date of withdrawal (whichever is greater).

2.2.3.2 The final costs of processing each resource consent application will be based on reasonable costs and will include the charging of staff time at the rates set out in Section 3.2 and disbursements. In the event that consultants are used to assist the council in processing resource consent applications, the actual costs of the consultants will be used in calculating the final costs.

2.2.3.3 All consent applications must be publicly notified if the consent authority decides that the activity for which consent is sought will have or is likely to have adverse effects on the environment that are more than minor. Where the adverse effects are considered to be minor the application will be processed on a limited notified basis unless written approval for the application has been

provided from every person that the consent authority decides is adversely affected by the activity for which consent is sought, in which case the application will qualify to be processed on a non-notified basis.

2.2.3.4 *Where an application is for multiple activities involving more than one type of consent, minimum estimated initial fees are required for each type with the following exceptions:*

1. The fee for land use consents for earthworks and/or vegetation clearance (including mining, quarrying, forestry, bridging and gravel extraction) also includes the water and discharge permits to divert and discharge stormwater where these are required;
2. The fee for discharge permits for sewage volumes greater than three cubic metres per day (e.g. communal subdivision systems, marae etc.) includes the associated discharge to air resource consent; and
3. The fee for discharge permits to discharge stormwater includes the associated water permit to divert stormwater.

Notwithstanding the above, the council may determine that other 'packages' of consent applications do not require individual minimum estimated initial fees for each consent type.

2.2.3.5 *The consent holder will be invoiced the amount of the minimum estimated initial fee for reviews of consent conditions at the time the review is initiated by the Council.*

2.2.3.6 *There is a 'fixed fee' for applications for discharge permits for burning of specified materials, including vegetation, by way of open burning or incineration device (e.g. backyard burning). This fixed fee only applies to such applications if they are able to be processed on a non-notified basis and no additional charges will be invoiced for such applications even if the costs exceed the fixed fee. However, in the event that the application is required to be limited notified or publicly notified then the council will require the applicable minimum estimated initial fee for notified and limited notified applications (as outlined in Section 3.2.1 before notification of the application.)*

2.2.3.7 *The council will provide a discount, if applicable, on the administrative charges imposed under Section 36 of the RMA in accordance with the Resource Management Discount Regulations 2010 for all applications lodged on or after 31 July 2010.*

2.2.4 Administration, monitoring and supervision of resource consents

2.2.4.1 Administration covers how the council records and manages the information it has on the resource consents it grants. The council is obliged to keep "records of each resource consent granted by it" under Section 35(5)(g) of the RMA, which must be "reasonably available [to the public] at its principal office" [Section 35(3) of the RMA]. The council keeps this information on hard copy files or electronic databases. The costs of operating and maintaining these systems are substantial.

The minimum annual resource consent charge set out in 3.5.1 recovers some of the costs of the administration of resource consents.

2.2.4.2 Monitoring is the gathering of information to check consent compliance and to ascertain the environmental effects that arise from the exercise of resource consents. The council is obliged to monitor "the exercise of the resource consents that have effect in its region" under Section 35(2)(d) of the RMA.

2.2.4.3 Supervision covers functions that the council may need to carry out in relation to the ongoing management of resource consents. This can include the granting of approvals to plans and other documentation, review and assessment of self-monitoring results provided by the consent holder, provision of monitoring information and reports to consent holders, meetings with consent holders relating to consent compliance and monitoring, and participation in liaison and/or peer review groups established under consent conditions or to address issues relating to the exercise of resource consents.

In determining charges under Section 36 of the Resource Management Act, the council has given consideration to the purpose of the charges and the council's functions under the Act. It is considered that consent holders have both the privilege of using resources and responsibilities for any related effects on the environment. It is the council's role to ensure that the level of effects is managed, monitored and is acceptable, in terms of sustainable management and the community's values. The annual charges for the administration, monitoring and supervision of resource consents are based on the assumption that those consents will be complied with and exercised in a responsible manner.

Annual resource consent (management) charges will be based on a set minimum charge plus charges for consent monitoring and/or supervision undertaken by council staff. Where appropriate, a portion of costs associated with State of the Environment (SOE) monitoring of resources used by consent holders is also collected, for example, the costs of running council's hydrological sites, water quality monitoring networks and associated surveys such as macroinvertebrate and fish monitoring. This particularly applies to water take consents, both surface and groundwater, and marine farms.

2.2.5 Invoicing non-scale fees

2.2.5.1 The majority of large-scale activities or activities with high potential adverse effects (where annual monitoring costs exceed \$1,000 GST inclusive) and certain small-scale activities such as short-term earthworks/construction type consents, will be monitored, the results recorded/reported and subsequently invoiced to the consent holder on an actual and reasonable cost basis.

2.2.5.2 Invoices will be generated once the costs of any work have exceeded a prescribed sum. This will be determined by the scale of the activity. Costs will be invoiced in a timely manner during the progress of the work to ensure that large amounts of costs do not accrue, unless otherwise authorised by the consent holder.

2.2.5.3 In the case of significant water takes, charges will generally be invoiced annually in line with Section 3.5.6 and any further supervision charges will be invoiced on a regular basis as costs are incurred by council.

2.2.6 Timing

2.2.6.1 Invoicing of consent annual charges will be in the quarter following the adoption of the Long Term Plan or Annual Plan by the council or after monitoring of the consent has been undertaken (post billing).

2.2.6.2 In some cases, invoicing of charges may be deferred until after the council has completed all, or a significant portion, of its planned monitoring of a consent.

2.2.6.3 Where any resource consent for a new activity is approved during the year and will be liable for future annual charges, the actual costs of monitoring activities will be charged to the consent holder subject to Section 2.2.7.4 below. Consents for activities in the Coastal Marine Area are also subject to the Navigation Water Transport and Maritime Safety Bylaw Charges.

2.2.6.4 In any case, where a resource consent expires, or is surrendered, during the course of the year and the activity or use is not ongoing, then the associated annual charge will be based on the actual and reasonable costs of monitoring activities to the date of expiry or surrender, and also the administrative/monitoring costs incurred as a result of the expiry/surrender of the consent.

2.2.6.5 Where a resource consent expires during the course of the year but the activity or use continues and requires a replacement consent, then the annual charges will continue to be applied.

2.2.7 Setting of annual resource consent (monitoring) charges

2.2.7.1 *Basis of charges*

1. The charges reflect the nature and scale of consented activities. In general, those activities having greater actual or potential effects on the environment require greater supervision and monitoring from the council. In setting these charges, the council has duly considered that their purpose is to recover the reasonable costs in relation to the council's administration, monitoring and supervision of resource consents and for undertaking its functions under Section 35 of the Resource Management Act. The estimated full costs of the council's supervision role and planned monitoring of consents will be recovered.
2. In respect of the council's administration role, a standard minimum annual charge will apply to cover some of the costs of operating and maintaining its consents-related information systems.
3. Where appropriate, a proportion of the costs of monitoring the state of the environment (Section 35(2)(a)) is incorporated in the charge to the consent holder. In such cases, the council has had particular regard to Section 36AAA(3)(c), that is, the extent that the monitoring relates to the likely effects of the consent holder's activities or the extent that the likely benefit to consent holders exceeds the likely benefit of the monitoring to the community. The costs to the council associated with this activity may be shared between consent holders and the community. This recognises that there is value and benefit to the community of work the council undertakes with respect to monitoring the state of the environment. In the council's judgement this is a fair and equitable division.

To date, a state of the environment charge has been incorporated into the annual charges applying to consents for water takes, known as the (water take) resource user charge (refer to Section 2.2.8.5).

4. In relation to swing/pile moorings within the Marine 4 Management (MM4) Areas which meet the permitted activity criteria, the costs of providing council services will be recovered as outlined in Sections 2.4.2 and 3.5.4.
5. In relation to swing/pile moorings outside the MM4 Areas without consent (non-consented), costs will be recovered through the Navigation and Safety Bylaw until consent is gained.
6. The charges for consents for minor to moderate activities are often based on scales (refer to Section 2.2.8.4). The general method for charging for large-scale activities is to apply the formulae in Section 2.2.8.6.

2.2.7.2 (Water take) resource user charge

1. Some of Northland's water resources are highly allocated and are under pressure. It is difficult to assess the natural flows/levels of water bodies as there is limited data available on water use and flows/levels in some areas. The National Policy Statement for Freshwater Management 2014 requires the council to set water quantity limits for all of Northland's water bodies.
2. In order to address this, the council developed a Sustainable Water Allocation Plan. This project requires ongoing resourcing by council to implement. The work provides benefit to both water users and the wider community. Much of the information provided by council's current hydrometric network is the basis for this work and as such, a part of the cost of running this network shall be recovered from water users through the (water take) resource user charge.
3. The details of this charge are outlined in Sections 3.5.2
4. The resource user charge for water take consents for hydroelectric generation will be considered on a case by case basis because they can be substantial and complex in nature.

2.2.7.3 Other State of the Environment charges

1. Where appropriate, the addition of a specified amount which contributes towards the recovery of costs incurred by council as part of its state of the environment monitoring and/or the hydrometric network.
2. The estimated monitoring costs are then rounded to an appropriate sum which becomes the expected annual charge. These formulae and the historical cost data of monitoring like consents provides a reasonable estimate of the actual costs of monitoring consents each year and will be used to provide the expected costs of monitoring in the forthcoming years.

2.2.7.4 Scale charges

Scaled charges are attributed to consents for minor to moderate activities and the charge reflects the costs of administering and monitoring that class of consent and/or the actual and/or potential effects of the activity. The latter will reflect the resource affected by the consented activity. Scale charges relate to the following types of consents:

Type of consent	Charges
Water takes fee scale	Refer to Section 3.5.2 and 3.5.6
Minor to moderate discharges to air and water and small to moderate-scale discharges to land, and land use activities including quarries	Refer to Section 3.5.3
Farm dairy effluent discharges(Refer to Section 3.6.2 for non-consented discharges)	Refer to Section 3.6.3
Coastal structures (post construction or installation)	Refer to Section 3.5.4
Coastal structures (construction or installation phase)	Refer to Section 3.6.4
Land use consents for boating-related structures in waters upstream of the coastal marine area (post construction)	Refer to Section 3.5.5

2.2.7.5 Large-scale activities

1. Consents that do not fall into the classes listed in Section 2.2.7.4 will be for larger scale activities or activities with high potential adverse effects (estimated compliance monitoring costs of \$1000 and over per year inclusive of GST). In most cases these consents will generally be subject to comprehensive monitoring programmes, regular inspections and involve routine sampling and testing or audit monitoring functions and/or contribute towards the costs of the council's State of the Environment monitoring as is the case for water take consents. Large-scale activities may require more monitoring inspections. As the sampling and testing requirements for these consents will vary, so too will the costs incurred by the council to carry out those monitoring programmes.
2. Annual charges for the monitoring of these consents is calculated using the following formulae and/or the actual and reasonable historical costs:

Labour (refer to Section 3.2)
+ Sampling and testing
+ Monitoring equipment
+ Administration
+ State of the Environment monitoring charge/resource user charge (refer to section)
= ANNUAL CHARGE

3. Holders of consents for large-scale activities will generally be invoiced the actual and reasonable costs of monitoring during the progress of the work.

2.2.8 Additional monitoring/supervision charges

2.2.8.1 Where non-compliance with resource consent conditions is encountered, or not programmed, additional monitoring is necessary the costs will be recovered in addition to the set annual charge.

2.2.8.2 The purpose of additional supervision charges is to recover costs of additional supervisory work that is required to be undertaken by council when people, including consent holders, do not act in accordance with consents or council's rules relating to resource use.

2.2.8.3 Additional supervision charges relate to those situations where consent conditions are not being met or adverse effects are resulting from the exercise of a consent; or unauthorised activities are being carried out.

2.2.8.4 When consent non-compliance or an unauthorised activity is found, the person is, if possible, given the opportunity to remedy the situation and is informed that costs of additional supervision will be recovered. Such activity may also be subject to infringement notices, enforcement orders or prosecutions.

2.2.8.5 Charges for additional supervision will be calculated on an actual and reasonable basis.

2.2.8.6 The costs that make up the charge will include:

1. Labour costs; officers' actual recorded time spent, including travel time, in following up the non-compliance matter or unauthorised activity (charged at the appropriate hourly rate listed in Section 3.2); plus
2. Any sampling and testing costs incurred; plus any equipment costs (excluding vehicle running costs) associated with the monitoring of the non-compliance; plus
3. Any external costs incurred (e.g. external consultants, hire of clean-up equipment).
4. For consent holders only, no additional supervision charge will be applied where the annual charges for their consents are sufficient to cover the costs incurred in following up their consent non-compliance.
5. In the case of water takes, annual charges are estimated on the basis of normal summer flows and consequently during drier than normal years further monitoring may be required in the form of flow, water level and/or water abstraction measurements. The costs of this further work will be charged to the consent holder in the form of additional supervision charges as outlined above.

2.2.9 Charges for emergency works

Under Section 331 of the Resource Management Act, the council may charge for the costs associated with any emergency works required for the:

1. Prevention or mitigation of adverse environmental effects;
2. Remediation of adverse effects on the environment; or
3. Prevention of loss of life, injury, or serious damage to property.

The costs charged will be the actual and reasonable costs incurred by council to do the works.

Charges for labour, supply of information and the council plant and equipment are detailed in Sections 3.2 and 3.10.

2.2.10 Changes in resource consent status

1. Where any resource consent is approved during the year, and will be liable for annual charges, the actual costs of monitoring activities will be charged to the applicant. The annual minimum fee will continue to apply per the council's policy in Section 2.2.7.

2. For large-scale activities where a resource consent expires, or is surrendered, during the course of the year and the activity or use is not on-going, then the associated annual charge will be based on actual and reasonable costs incurred to the date of expiry or surrender, including costs incurred as a result of monitoring and administration activities associated with the expiry or surrender of the consent. The annual minimum fee will continue to apply.
3. Where a resource consent expires during the course of the year but the activity or use continues and is subject to a replacement process, then the annual charges will continue to apply.

2.2.11 Charges set by regional rules

2.2.11.1 When developing a regional plan, the council may create regional rules to prohibit, regulate or allow activities. These rules may specify permitted activities, controlled activities, discretionary activities, non-complying activities, prohibited activities and restricted coastal activities.

2.2.11.2 Permitted activities are allowed by a regional plan without a resource consent, if the activity complies with any conditions, which may have been specified in the plan. Conditions on a resource consent may be set in relation to any matters outlined in Section 108 of the Resource Management Act. They may include a specific condition relating to a financial contribution (cash, land, works and services) for any purpose specified in a plan.

2.2.11.3 The council therefore reserves the right to set other charges pursuant to regional rules in regional plans. These charges will include staff costs for giving evidence in a New Zealand court; matters pertaining actions required under the Maritime Transport Act 1994 or Biosecurity Act and any other regulated activities. Any new charges would be notified through the public process required for a regional plan prior to its approval.

2.2.11.4 Actual and reasonable costs will be charged for fees set by regional rules. These costs will include:

1. Staff costs – officers’ actual recorded time charged at an hourly rate comprising actual employment costs plus a factor to cover administration and general operating costs. (See Staff Charge Rates in Section 3.2)
2. Hearings – the costs of pre-hearing meetings and hearings will be charged to the applicant. Council members’ hearing costs will be recovered as determined by the Remuneration Authority. Staff costs and committee members’ fees or the actual costs of independent commissioners at formal hearings will be charged.
3. For applications relating to restricted coastal activities, the applicant will also be charged the council’s costs of the Minister of Conservation’s representative. Charges related to joint hearings will be apportioned by the authorities involved, according to which authority has the primary role of organising the hearing.
4. External costs, disbursements, are additional to the above charges, for example advertising, consulting and legal advice, laboratory testing, hearing venues and incidental costs.

2.2.12 Preparing or changing a policy statement or plan

2.2.12.1 Any person may apply to the council for the preparation of or change to a regional plan. Any Minister of the Crown or any territorial authority of the region may request a change to a policy statement.

2.2.12.2 When considering whether costs should be borne by the applicant, shared with the council, or borne fully by the council, the following will be taken into account:

1. the underlying reason for the change; and
2. the extent to which the applicant will benefit; and
3. the extent to which the general community will benefit.

2.2.12.3 For the receipt and assessment of any application to prepare or change a policy statement or plan, actual and reasonable costs will be recovered. The charging policies are outlined below:

1. All applicants will be required to pay a minimum estimated initial fee set out in Section 3.3 based on the expected costs of receiving and assessing the application, up to but not including the costs of public notification. Actual and reasonable costs based on an hourly rate set out in Section 3.2, mileage and disbursements will be included in the minimum estimated initial fee. Any additional costs incurred in processing the application will be invoiced to the applicant.
2. For any action required to implement a decision to proceed with the preparation or change to a policy statement or plan, a minimum estimated initial fee as set out in Section 3.3 shall be made for the costs of public notification. This will be followed by a case-by-case assessment of where the costs should fall. Any costs charged will be invoiced monthly from the date of public notification.

Prior to public notification, an estimate of total costs will be given to the applicant. The applicant will have the option of withdrawing the request on receipt of notice of the estimated costs.

Withdrawn requests are subject to payment of the actual and reasonable costs of relevant work completed to the date of withdrawal.

2.2.13 Charges for monitoring regulations

Under regulation 106 of the National Environmental Standards for plantation forestry, the council may charge for monitoring of the permitted activities specified by regulations 24, 37, 51 and 63(2) of the standards.

2.3 LOCAL GOVERNMENT ACT 2002 (LAND AND RESOURCES)

The charges for the following council activities/services have been set according to Section 150 of the Local Government Act:

2.3.1 Monitoring/inspections of permitted activities

Charges are payable to recover the costs of inspections of permitted activities to determine compliance with the permitted activity rules in the regional plans. The inspections are conducted in order that adequately carries out its functions and responsibilities under Sections 30, 35 and 36 of the Resource Management Act.

2.3.1.1 Farm dairy effluent discharges

1. Administration costs incurred will be charged in addition to the costs of the site visit/inspections, plus the actual and reasonable cost of any specific water quality testing and/or enforcement action required (see Section 3.6.1).
2. Where there is a need for two officers to attend, the costs of both officers will be recovered.
3. The charges are listed in Section 3.6.
4. For charges for consented farm dairy effluent discharge consents, refer to Section 3.6.3.

2.3.1.2 Other permitted activities

1. The costs of the site visit/inspections, plus the reasonable cost of any specific water quality testing and/or enforcement action required will be charged.
2. The costs of monitoring of those regulations will be charged as set out in Sections 3.2 and 3.10.

2.3.2 Environmental incidents

Where a person (or persons) carries out an activity in a manner that does not comply with Sections 9, 12, 13, 14, 15, 315, 323, 328 or 329 of the RMA, the council will charge that person (or persons) for the actual and reasonable cost of any inspection/investigation it undertakes in relation to the activity. This cost may include:

1. Time spent by the council staff identifying and confirming the activity is taking or has taken place.
2. Time spent by council staff identifying and confirming the person(s) responsible for causing or allowing the activity to take place or to have taken place.
3. Time spent by council staff alerting and informing the person(s) of their responsibilities in relation to the activity, including any guidance or advice as to how any adverse effects of the activity might be managed.
4. Staff travel time and vehicle mileage.
5. Costs of any specific testing of samples taken.
6. Costs of professional services contracted to assist in the inspection/investigation of the activity.
7. Clean up costs and materials.

The council will only charge for time spent that exceeds 30 minutes. Travel time will be included in the calculation of that time.

Where an incident occurs on a site that 'holds' a resource consent and a breach of consent conditions is confirmed, then this section does not apply. Any actual and reasonable costs incurred in the investigation of the incident will be recovered as additional consent monitoring charges.

2.3.3 Investigation of land for the purposes of identifying and monitoring contaminated land

The council is responsible for identifying and monitoring contaminated land under Section 30(1)(ca) of the RMA. Council will recover the costs of inspections plus the actual and reasonable cost of site investigations including any specific testing of samples taken. Staff charge rates, sampling and equipment costs are outlined in Sections 3.2 and 3.10.

2.4 MARITIME ACTIVITIES

These charges – which the council is enabled to set under a number of legislative instruments – are presented together for the purposes of clarity.

2.4.1 Charges for maritime-related incidents (Local Government Act 2002)

These charges are made to recover the costs incurred by the council as a result of staff responding to any incident that causes or may have the potential to cause, adverse environmental effects or effects on navigation and safety. The response action taken by council staff may include, but will not be limited to, monitoring, inspection, investigation, clean-up, removal, mitigation and remediation works. Actual costs for consumables, plant and equipment used/hired during a response will also be charged in addition to staff hours (as set out in Section 3.2) as appropriate.

For incidents occurring outside normal business hours, a minimum call out fee of three hours at staff charge rates shall apply (includes oil spill response, training exercises, and emergency response).

2.4.2 Northland Regional Council Navigation Safety Bylaw Charges

1. The Navigation Safety Bylaw regulates navigation, water transport and maritime safety in Northland.

2. The charges are set out in section 3.5.4 and are collected for functions, duties, powers or services carried out by the council and must be paid on demand by the consent holder or owner, to the council.
3. The current Navigation Safety bylaw is available on the council's website or from council offices.
4. The fees and charges collected contribute to the upkeep of the region's maritime services, for example, the harbourmaster, buoys and beacons, etc.

2.4.3 Standard charges for Marine Tier 1 Oil Transfer Sites (Maritime Transport Act 1994)

2.4.3.1 Maritime Rule Part 130B requires that the operator of an oil transfer site obtain the approval for a site marine oil spill contingency plan from the Director of Maritime New Zealand. The power to approve these plans has been delegated by the director to the Chief Executive Officer (sub-delegated to council employees) of the Northland Regional Council in an Instrument of Delegation pursuant to Section 444(2) of the Maritime Transport Act 1994.

2.4.3.2 Section 444(12) of the Maritime Transport Act 1994 allows the council to charge a person a reasonable fee for:

1. Approving Tier 1 site marine oil spill contingency plans and any subsequent amendments.
2. Inspecting Tier 1 sites and any subsequent action taken thereafter in respect of preparation of inspection reports or reporting on non-conformance issues.

2.4.3.3 *Basic fee* – the council will charge a minimum fee and any additional staff costs, as set out in Section 3.7.10.

2.4.3.4 *Additional staff costs* – in addition to the basic fee set out above, additional charges may be applied for staff costs. The costs are based on officers' actual recorded time charged at an hourly rate set out in Section 3.2 of this document, comprising actual employment costs plus a factor to cover administration and general operating costs. Should travel be required, additional costs for mileage will be charged at the standard rate as approved by the Inland Revenue Department.

2.5 BUILDING ACT 2004

2.5.1

Section 243 of the Act specifically allows for the council to impose a fee or charges for:

1. Issuing a project information memorandum.
 2. The performance of any other function or service under this Act.
 3. Recovering its costs from the owner if it carries out building work under Section 156 of this Act.
- d. Where a fee or charge is payable for the performance of a function or service, then the council may decline to perform the function or service, unless the fee or charge is paid.

2.5.2

Costs incurred beyond the fee are to be recovered on the basis of actual and reasonable costs incurred by the council.

2.5.3

The minimum fees for the different consent activities are set out in Section 3.4.

2.5.4

Charges fixed under the Building Act 2004 are resolved by the council and fixed pursuant to the Local Government Act 2002 process until subsequently amended.

2.5.5

Policies set out in Section 3.4 also apply to Building Act applications.

2.5.6

All applications for a project information memorandum and a building consent, as well as the issuing of notices to rectify will be subject to a minimum estimated charge as set out in Section 3.4.

2.5.7

Charges for Building Act functions other than the issuing of project information memoranda and building consents will be charged a set fee per individual element, or on the basis of actual and reasonable cost, as set out in Section 3.4.

2.5.8

These functions include the issue of compliance schedules, requests for information on building consent applications, extension of valid term, actions re dangerous buildings, inspections and technical processing.

2.5.9

The "Minimum Estimated fee" is payable upon application for a PIM/LIM. Final actual and reasonable costs are payable upon uplifting the PIM/LIM based on staff charge rates in Section 3.2.

2.5.10 Building consents and certificates of approval

Incorporating receipt of a building consent application, the issue of a building consent, including project information memorandum, payment of a building research levy and/or Department of Building and Housing levy (where applicable) and the issue of a code of compliance certificate (where applicable).

2.5.11 Dams

Under section 244 of the Building Act 2004, council has decided to transfer the Building Act functions for consenting dams to the Waikato Regional Council. Fees will be charged in accordance with the Fees and Charges policy set by Waikato Regional Council. All fees and charges for consent processing will be invoiced directly to the applicant by Waikato Regional Council.

2.5.12 Requests for information on building consents

Charges will be the actual and reasonable costs based on staff charge rates shown in Section 3.2.

2.5.13 Technical processing and the exercising of other functions, powers and duties under the Building Act 2004

For technical processing and other functions under the Building Act, full costs over and above the minimum estimated initial fee will be recovered in accordance with the additional hourly charges.

2.5.14

All charges are payable upon invoice, provision of service or upon the exercise of the function, power or duty. Progressive charging may be used where costs are greater than \$500 (excluding GST).

2.5.15

When building consent non-compliance or an unauthorised activity is found, the person is, if possible, given the opportunity to remedy the situation and is informed that costs of additional supervision will be recovered. Such activity may also be subject to infringement offence notices, enforcement orders or prosecutions.

2.5.16

An enforcement officer who observes a person committing an infringement offence or has reasonable cause to believe that an infringement offence is being or has been committed is authorised and warranted under Section 229 of the Building Act 2004 to issue an infringement notice.

2.6 BIOSECURITY ACT 1993

2.6.1 Regional Pest Management Strategies or Plan, or Pathway Management Plan Cost Recovery Policy

Section 135 of the Biosecurity Act provides regional councils with options to recover the costs of administering the Act and performing the functions, powers and duties under a pest management strategy or plan, or a pathway management plan. This recovery must be in accordance with the principles of equity and efficiency. Section 135 of the Biosecurity Act authorises the recovery of costs by such methods that they believe to be the most suitable and equitable in the circumstances, including fixed charges, estimated charges, actual and reasonable charges, refundable or non-refundable deposits paid before the provision of the service, charges imposed on users of services or third parties, and cost recovery in the event of non-compliance with a legal direction.

2.6.2 Request for work

An authorised person may request any occupier to carry out specified works or measures for the purposes of eradicating or preventing the spread of any pest in accordance with the Northland Regional Pest Management Strategies.

2.6.3 Legal directions

An authorised person may issue a legal direction to any occupier to carry out specified works or measures for the purposes of eradicating or preventing the spread of any pest in accordance with a Northland Regional Pest Management Strategies. The legal direction shall be issued under Section 122 of the Biosecurity Act and specify the following matters:

1. The place in respect of which works or measures are required to be undertaken;
2. The pest for which the works or measures are required;
3. Works or measures to be undertaken to meet the occupier's obligations;
4. The time within which the works or measures are to be undertaken;
5. Action that may be undertaken by the management agency (generally the council) if the occupier or occupiers fail to comply with any part of the direction;
6. The name, address, telephone number and email address of the management agency and the name of the authorised person issuing the legal direction.

2.6.4 Failure to comply with a legal direction

Where a legal direction has been given to an occupier under the Northland Regional Pest Management Strategies or Pest Management Plan or Marine Pathways Management Plan, and the occupier has not complied with the requirements of the legal direction within the time specified, then the council may enter onto the place specified in the legal direction and carry out, or cause

to be carried out, the works or measures specified in the legal direction, or such other works or measures as are reasonably necessary or appropriate for the purpose of giving effect to the requirements of the legal direction.

2.6.5 Recovery of costs incurred by management agency

Where the council undertakes works or measures for the purposes of giving effect to the requirements of a request for work or a legal direction it shall recover the costs incurred from the occupier pursuant to Sections 128 and 129 of the Biosecurity Act and may register the debt as a charge against the certificate of title for the land.

2.6.6 Recovery of Costs for Marine Biosecurity Activities

Council has an ongoing programme of marine biosecurity inspection, monitoring and response work, that is undertaken for the purposes of implementing its pest management strategies and plans. (Some) cost recovery is sought for these marine biosecurity activities as provided for by Section 135 of the Biosecurity Act 1993. Cost recovery is set as an annual charge, specified as a 'Marine Biosecurity Fee' and is applied to all moorings, marina berths, boat sheds, and ports as set out in Section 3.5.4 of this charging policy. The charge applies whether inspection, monitoring and/or response is carried out on that individual structure or not.

2.6.7 Failure to pay

Section 136 of the Biosecurity Act provides for regional councils to apply a penalty to charges under the Biosecurity Act that remain unpaid for more than 20 working days since the charge was demanded in writing. Council will apply a penalty of 10% of unpaid charges to the debt incurred, after a period of 20 working days from the due date stated on the original invoice. In addition to this, 10% will be applied for every completed period of six calendar months that the debt remains unpaid (six month period will be calculated from the 21st day of the charge remaining unpaid).

2.6.8 Equity and Efficiency of Marine Biosecurity Activities

Section 135(2) of the Biosecurity Act requires that, in determining appropriate mechanisms for the recovery of costs of a particular function or service, a recovering authority shall ensure that it is not recovering more than the actual costs of the function. This is based on the actual costs for that year, taking into account any shortfall in recovery of costs in the preceding year, and any over-recovery of costs in the preceding year.

There was no over-recovery of costs in the 2017/18 year. The proposal to recover only the actual costs of the function for the current (2018/19) year is considered to be an equitable and efficient means of recovering cost of the marine biosecurity function.

2.7 PROPERTY LAW ACT 2007

Under the Property Law Act 2007, the council can require a charge to cover reasonable legal or other expense of the lesser in giving consent. The charges are set out in Section 3.9.

Part Three: Schedules of fees and charges

3.1 LOCAL GOVERNMENT OFFICIAL INFORMATION

In some cases, the council is permitted to charge for the provision of official information. Requesters will be advised in advance if the council decides to apply a charge.

Black and white photocopying or printing on standard A4 or foolscap paper where the total number of pages is in excess of 20 pages will be charged out at 10 cents for each page after the first 20 pages. All other photocopying and printing charges will recover the actual and reasonable costs involved.

Scale of annual charges for water takes

Note: Section 3.5.6 identifies water take consents that have charges set outside these scales.

Fee level	Description/Criteria	Administration charge \$ including GST	Compliance monitoring/supervision \$ including GST	Resource user charge \$ including GST	Total annual charge \$ including GST
ADM001 RUC001	1. Negligible potential effect: minor abstraction from water resource low level of allocation and limited future potential demand; no water use returns; limited benefit from existing State of Environment monitoring. (Minimum fee)	108.00	0.00	27.00	135.00
ADM001 WAT001 RUC002	2. Minor potential effect: minor abstraction from water resource with low to moderate level of allocation; moderate abstraction from water resource with low level of allocation; water use returns; small benefit from existing State of Environment monitoring and limited monitoring in the catchment.	108.00	28.00	81.50	217.50
ADM001 WAT002 RUC003	3. Moderate potential effect: minor abstraction from water resource with moderate to high level of allocation; moderate abstraction from a water resource with moderate levels of allocation; major abstraction from water resource with low level of allocation; water use returns, resource monitoring by consent holder; moderate benefits from existing State of Environment monitoring, data likely to be used for flow allocation management purposes and/or replacement of consent.	108.00	64.00	161.00	333.00

Fee level	Description/Criteria	Administration charge \$ including GST	Compliance monitoring/supervision \$ including GST	Resource user charge \$ including GST	Total annual charge \$ including GST
ADM001 WAT003 RUC004	4. Medium potential effect: moderate abstraction from water resource with high level of allocation; major abstraction from resource with moderate level of allocation; water use returns, resource monitoring by consent holder; continuation flow conditions; existing State of Environment monitoring has greater benefits to consent holder for management, security of supply and/or replacement of consent; total estimated staff time relating to monitoring, supervision and reporting of compliance 1-2 hours.	108.00	144.00	270.00	522.00
ADM001 WAT004 RUC004	5. Medium potential effect – moderate inspection time: same criteria as Category 4. However, total estimated staff time relating to monitoring, supervision and reporting of compliance 2-3 hours.	108.00	221.50	270.00	599.50
ADM001 WAT005 RUC004	6. Medium potential effect – significant inspection time: same criteria as Category 4 but total estimated staff time relating to monitoring, supervision and reporting of compliance 3-4 hours	108.00	300.50	270.00	678.50
ADM001 WAT006 RUC005	7. Medium to high potential effect – significant inspection time: moderate to major abstraction from resource with high level of allocation. Significant total estimated staff time for inspection and/flow monitoring and consent compliance >4 hours; existing State of Environment monitoring has considerable benefits to consent holder for management, security of supply and/or replacement of consent.	108.00	364.00	471.00	943.00

Fee level	Description/Criteria	Administration charge \$ including GST	Compliance monitoring/supervision \$ including GST	Resource user charge \$ including GST	Total annual charge \$ including GST
ADM001 WAT007 RUC006	8. High potential effect – significant inspection time: major abstraction from resource with high level of allocation. Significant total estimated staff time for inspection and/flow monitoring and consent compliance >4 hours; existing State of Environment monitoring has direct benefits to consent holder for management, security of supply, replacement of consent, and specific compliance monitoring of consent.	108.00	444.50	942.50	1,495.00

3.5.3 Minor to moderate discharges to air, water and land, and land use activities including quarries

Scale of annual charges for consents for minor to moderate discharges to air, water, and land (no or minor sampling and/or testing planned) and consents for land use activities including quarries.

The fee levels provided below allow for the appropriate recovery of costs by the council based on the degree of work required by the council in monitoring each consent.

3.5.4 Moorings and Coastal structures (post construction or installation)

Annual charges for moorings and coastal structures are set pursuant the Resource Management Act 1991, the Biosecurity Act 1993, and the Maritime Transport Act 1994.

The Navigation Safety Bylaw fee is set pursuant to the Maritime Transport Act 1994, in conjunction with the Navigation Safety Bylaw for Northland. The Owner⁽¹⁾ of every Maritime Facility⁽²⁾ or Mooring⁽³⁾ in the region shall pay to the council this annual navigation fee. The navigation safety bylaw fee shall be payable on the number of berths available at the maritime facility, whether or not all berths are used. The council's Harbourmaster shall determine the number of berths available at any maritime facility.

These bylaw charges were publicly notified pursuant to the Local Government Act 2002 and were set at a meeting of council on [Date to be advised following consultation] June 2018. On [Date to be advised following consultation] June 2018, the Council also resolved that activity income sources would be inflation adjusted each year. The bylaw charges came into force on 1 July 2018. In accordance with the decision made on [Date to be advised following consultation] June 2018 as part of the Long Term Plan 2018-2028, these charges have been inflation adjusted for the 2018/19 year.

- 1 "Owner" includes: a) in relation to a vessel, the agent of the owner and also a charterer; or b) in relation to any dock, wharf, quay, slipway or other maritime facility, means the owner, manager, occupier or lessee of the dock, wharf, quay, slipway or other maritime facility.
- 2 "Maritime facility" means any jetty, jetty berth, wharf, ramp, slipway, boatshed, marine berth, pontoon or, whether private, commercial or a recreational public facility, that is located within the coastal marine area of Northland
- 3 "Mooring" means any swing or pile mooring whether private, commercial or recreational mooring that is located within the coastal marine area of Northland.

3.5.4.1 Scale of annual charges for Moorings and Marina Berths

Fee level	Description/Criteria	RMA administration fee or mooring licence fee \$ including GST	Navigation safety bylaw fee \$ including GST	Marine Biosecurity Charge per mooring or berth \$ including GST ⁽¹⁾	Total fee \$ including GST
MOR001 MOR002 BIO001	Individual swing, pile and jetty moorings with or without resource consents.	108.00	77.50	81.00	266.50
MOR004 MOR002 BIO001	Swing and pile moorings owned by one person or organisation, comprising 10 to 24 moorings (per mooring and berths). Note: No additional charge will be set for those structures which are an integral part of the mooring area, so long as those facilities and activities do not give rise to any significant adverse environmental effects.	92.00	77.50	81.00	250.50
MOR005 MOR006 BIO001	Pile moorings and jetty berths owned by one organisation, comprising 25 berths or more, but no more than 75 berths (per berth). Note: No additional charge will be set for those structures which are an integral part of the mooring area, so long as those facilities and activities do not give rise to any significant adverse environmental effects.	59.00	72.00	81.00	212.00

1. Unpaid marine biosecurity charges will incur a 10% penalty 20 working days after the due date stated on the invoice. Please see section 2.6.7 for more

Mooring license amendment fee

Any changes to the mooring license conditions, such as position, size or design of a mooring, or the maximum length of vessel allowed to use the mooring must be approved by the harbourmaster as required by the Navigation Safety Bylaws. The fee relates to the actual work involved in processing the application, including checking the effect on adjacent mooring holders.	206.00
<p>On-site assessment of moorings</p> <p>Mooring holders who require an on-site assessment or inspection of their mooring, or proposed mooring, by the maritime staff for their own benefit will receive a fee based on the actual officer's time charged, at an hourly rate comprising actual employment costs plus a factor to cover administration costs (as per the staff charge rate see section 3.2).</p>	

Pursuant to the provisions of Navigation Safety Bylaw clause 3(1)(6), should any mooring licence fees or other charges due to the council under the provision of this bylaw remain unpaid for a period of 60 days, then the harbourmaster may remove, or cause to be removed, the mooring and detain the vessel using the mooring, until such fees and charges, including the cost of removing the mooring and storing the vessel, have been fully paid and discharged. Should such debts have not been paid and discharged within a further 60 days, the council has the right to sell the mooring and/or vessel to recover the debt.

2. The navigation safety fee will be applied according to the number of vessels berthed, at \$77.50 per berthed vessel.
3. The navigation safety fee will be applied according to the number of vessels berthed, at \$155.00 per berthed vessel.

* Per farm for amalgamated consents.

Note: All structures may be subject to additional charges that recover the costs incurred by the council for extra monitoring, such as sampling a discharge. Where the costs of monitoring the structure and discharge exceed the annual charge herein, the council will recover the balance in accordance with Section 36(5) of the Resource Management Act 1991.

Low use structures are typically privately owned and high use structures are typically commercially owned.

Consent holders of multiple structures authorised under a single resource consent for contiguous facilities, will be charged one annual fee for the most significant authorised by that consent.

* Includes a charge pursuant to Section 36(1)(c) towards the costs of specific investigations (flow and/or water quality monitoring) within catchment relating to consent and compliance monitoring.

Multiple consents taking from different catchments and/or resources.

For the basis of charging, refer to section 2.2.8 setting of annual resource consent (monitoring) charges of the Charging Policy for bases of charges.

3.6 INSPECTION AND MONITORING CHARGES

3.6.1 Permitted activity monitoring/inspections – fees

The fees will be charged on a cost recoverable basis (officer time, sampling and equipment costs). Refer to section 3.2 staff charge rates and section 3.10 miscellaneous management charges.

3.6.2 Permitted activity dairy discharges – fees

The charges are as follows:

		\$ excluding GST
	(i) Inspection and monitoring fee:	
FDE020	Grades full compliance and minor non-compliance	182.50
FDE021	Grades significant non-compliance	273.50
	(ii) Second and subsequent visits and inspections (including travel time) for significant non-complying farms	88.00 per hour

Where there is a need for two officers to attend, the costs of both officers will be recovered.

Administration costs incurred will be charged in addition to the costs of the site visit/inspections, plus the actual and reasonable cost of any specific water quality testing and/or enforcement action required (see section 3.10).

Note: For charges for consented farm dairy effluent discharge consents, refer to section 3.6.3.

3.6.3 Farm dairy effluent inspection charges

Scale of charges for consents for farm dairy effluent discharges (full and minor non-compliance and significant non-compliance).

3.6.3.1 Full and minor non-compliance

Sampling and testing required where indicated.

Second and subsequent visit, including follow-up inspections, for significant non-complying systems will be at \$88.00 per hour plus GST, plus the actual and reasonable cost of any specific water quality testing and/or enforcement action required.

Where there is a need for two officers to attend, the cost of both officers will be recovered.

Note: For fees charged under the Local Government Act for the inspection of non-consented dairy effluent discharge systems, refer to Section 2.3.1 of the Charging Policy.

3.6.4 Coastal structures (construction or installation phase) – monitoring inspection charges

The fees will be charged on a cost recoverable basis (officer time, sampling and equipment costs). Refer to section 3.2 staff charge rates and section 3.10 miscellaneous management charges.

Note: Refer to Section 2.2.8 setting of annual resources consent (monitoring) of the Charging Policy for bases of charges.

3.7 MARITIME ACTIVITIES

3.7.1 Fees for maritime-related incidents

Staff time will be charged at the minimum charge out rate applicable to the staff members involved.

3.7.2 Hot Work Permits

	\$ GST exclusive
For vessels alongside wharves or at anchor, per permit.	80.87

3.7.3 Safe Operating Licences

	\$ GST exclusive
For all Northland harbours, unpowered craft not subject to a maritime rule and available for lease or hire, including: dinghies, kayaks, canoes, aqua-cycles, surf cats or similar commercially available craft, an inspection fee to verify the adequacy of procedures and safety equipment, up to one hour.	80.87
Where inspection time exceeds one hour, the charge shall be at the rate of \$73.00 per hour plus vehicle running costs at the rates approved from time to time by the Inland Revenue Department.	73.00

3.7.4 Jet Ski Registration Fees

As resolved and prescribed by the Auckland Council which undertakes this function on behalf of the Northland Regional Council under delegated authority.
