

Contain or treat your boat sewage

Protect our bays and harbours

To comply with staying overnight on your boat in Northland, you will need:

- » a well-maintained treatment system that complies with the Marine Pollution Regulations; or
- » a sewage holding tank, a portable toilet or a composting toilet, and;
- » regularly and legally pump out all the sewage from your Boat's sewage holding tank or portable toilet at a sewage pump-out facility or navigate into waters seaward of the marine pollution limit.

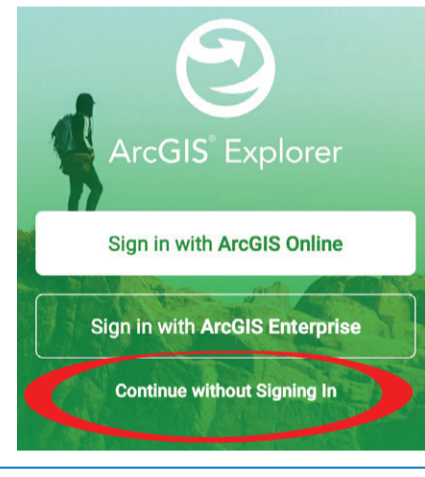

Northland and Auckland Boat Discharge Rules – App Instructions and Guide
