

NORTHLAND
EMERGENCY MANAGEMENT

GROUP

TSUNAMI SIREN TESTING

Northland's network of tsunami sirens in coastal communities will be tested on the morning of Sunday, 5 April 2020.

Please note the time. The sirens will sound twice: at 10am for 10 minutes, and at 10.30am for 30 seconds.

The twice-yearly checks are carried out at the beginning and end of daylight saving. A message will also be sent to users of the free Red Cross Hazard app.
