

**NORTHLAND  
EMERGENCY MANAGEMENT**

**GROUP**

## **TSUNAMI SIREN TESTING**

Northland's network of tsunami sirens in coastal communities will be tested on the morning of Sunday, 2 April 2017.

The sirens will sound twice – at 9.20am for 10 minutes and again at 10am for just 30 seconds.

The twice-yearly checks are carried out at the beginning and end of daylight saving. A message will also be sent to users of the Hazard app.
