

NATIONAL ENVIRONMENTAL STANDARDS – COMMERICAL FORESTRY

SCHEDULE 3 - AFFORESTATION & REPLANTING PLAN

NAME OF BLOCK:	LOCATION:
<p>1. Person and property details The person and property details are—</p> <ul style="list-style-type: none"> a) the plan and notice date: <input style="float: right;" type="checkbox"/> b) the name of and contact details for the land owner or their agent: <input style="float: right;" type="checkbox"/> c) the name of and contact details for the forest owner (if different): <input style="float: right;" type="checkbox"/> d) the name of and contact details for the forest manager or other manager relevant to the commercial forestry activity (if different): <input style="float: right;" type="checkbox"/> e) the contact details for service—postal address, email address, phone number(s): <input style="float: right;" type="checkbox"/> f) the region and district in which the forest is located: <input style="float: right;" type="checkbox"/> g) the name of the road used for forest access and the rural number of the entry point: <input style="float: right;" type="checkbox"/> h) the forest name or property location identifier: <input style="float: right;" type="checkbox"/> i) the cadastral and map references, or GIS polygon reference. <input style="float: right;" type="checkbox"/> 	<p style="text-align: center;">Comments</p>
<p>2. Map The plan must include a map or maps that include and show—</p> <ul style="list-style-type: none"> a) a scale not less than 1:10,000: <input style="float: right;" type="checkbox"/> b) the record of title, the date, and a north arrow: <input style="float: right;" type="checkbox"/> c) the external property boundaries within 200 m of the commercial forestry activity area: <input style="float: right;" type="checkbox"/> d) the contour lines at intervals less than or equal to 20 m: <input style="float: right;" type="checkbox"/> e) the erosion susceptibility classification (NЕСSF overlay map): <input style="float: right;" type="checkbox"/> f) the location of any significant natural areas and vegetation clearance areas: <input style="float: right;" type="checkbox"/> g) any water body or the coastal marine area, including— <input style="float: right;" type="checkbox"/> 	

(i) wetlands larger than 0.25 ha and lakes larger than 0.25 ha; and	<input type="checkbox"/>
(ii) rivers to their perennial extent; and	<input type="checkbox"/>
(iii) rivers where the bankfull channel width is 3 m or more; and	<input type="checkbox"/>
(iv) any outstanding freshwater body or water body subject to a water conservation order; and	<input type="checkbox"/>
(v) any setbacks from any identified water body or the coastal marine area:	<input type="checkbox"/>
h) any registered drinking water supply and any drinking water sources for more than 25 people within 1 km downstream of the commercial forestry activity:	<input type="checkbox"/>
i) the location of any forestry infrastructure, including existing and proposed—	
(i) roads:	<input type="checkbox"/>
(ii) tracks:	<input type="checkbox"/>
(iii) landings:	<input type="checkbox"/>
(iv) firebreaks:	<input type="checkbox"/>
(v) river crossings (permanent and temporary):	<input type="checkbox"/>
(vi) fuel storage and refuelling sites:	<input type="checkbox"/>
(vii) end-haul deposit sites:	<input type="checkbox"/>
(viii) slash storage areas:	<input type="checkbox"/>
j) the afforestation area boundary and the areas in which afforestation and replanting is occurring:	<input type="checkbox"/>
k) the forest species to be afforested or replanted:	<input type="checkbox"/>
l) the year or season where planting is expected to occur (if afforestation is occurring):	<input type="checkbox"/>
m) the segmentation boundaries within afforestation or replanting areas required by the wilding tree risk guidelines to calculate a wilding tree risk calculator score:	<input type="checkbox"/>
n) spatial information associated with the activity described under clause 3.	<input type="checkbox"/>
3. Activity The plan must state the commercial forestry activity being undertaken, and include—	<input type="checkbox"/>
a) where the activity is taking place; and	<input type="checkbox"/>
b) when the activity will begin and end; and	<input type="checkbox"/>
c) how the activity is to be undertaken.	<input type="checkbox"/>

4. Management requirements

Significant natural areas

(1) The plan must describe—

- a) how any significant natural area identified under clause 2(f) is to be avoided when undertaking a commercial forestry activity; and ☐
- b) the operational restrictions, including restrictions on afforestation or replanting, earthworks operations, or harvesting, as applicable, that will be used to ensure that no commercial forestry activity occurs within the significant natural area. ☐

Water quality and sediment

(2) The plan must,—

- a) for sites with a water body, identify the risks from material that is mobilised, including woody debris, slash, or sediment, to the following if they are located downstream of the commercial forestry activity: ☐
 - (i) public roads and other infrastructure: ☐
 - (ii) properties, including dwellings: ☐
 - (iii) rivers, lakes, estuaries, and the sea: ☐
 - (iv) drinking water supplies; and ☐
- b) include the proposed heavy rainfall contingency and response measures, including— ☐
 - (v) specific triggers or thresholds for action; and ☐
 - (vi) maintenance, post-event monitoring, and remedial works in relation to those measures. ☐

Erosion and sedimentation

(3) The plan must include a description of—

- a) the erosion and sedimentation effects of afforestation and replanting, including those effects that arise over the lifecycle of the forest or until a subsequent forest planning requirement is triggered; and ☐
- b) the measures to be used to— ☐
 - (i) monitor the erosion and sedimentation effects of afforestation and replanting; and ☐
 - (ii) maintain records relating to erosion and sedimentation. ☐

Wilding trees

(4) The plan must include—

- a) the wilding tree risk calculator score and the calculation sheet used to provide that score; and ☐
- b) the assessments required by regulation 11(4)(b); and ☐

<p>c) a description of—</p> <ul style="list-style-type: none"> (i) any adjacent properties under the same ownership; and (ii) the schedule for undertaking wilding conifer inspections; and (iii) how wilding conifer removals will be undertaken. 	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
