

Northland Regional Council
Coastal Central General Constituency
Electing 1 Regional Councillor

Amy MACDONALD

My principal place of residence is in the Coastal Central General Constituency area.

Kia ora koutou, it is my privilege to be your current Councillor; thank you for trusting me to represent you. I live at Pataua South with my family, and am motivated and hardworking. I

have the skills to listen, understand the issues, and influence change.

I am a qualified freshwater ecologist and have experience across freshwater protection and restoration, biosecurity and education. I lead the climate change response at council, and have built positive and productive working relationships to achieve action.

My goal is for future generations to inherit a healthy natural environment. Rivers, harbours and beaches will be safe for swimming and harvesting food, native flora and fauna will be protected, and our communities and economy will be thriving. As your councillor, I will continue to work with integrity, representing the voice of the community and using my knowledge and experience to help our people and environment to prosper.
