

## **PUBLIC NOTIFICATION OF APPLICATION FOR RESOURCE CONSENT**

Northland Regional Council has received an application from the Whangārei District Council to renew the resource consents for the continued operation of the Whangārei Wastewater Treatment Plant located at 79 Kioreroa Road, Whangārei. The resource consents being applied for are:

- Discharge treated wastewater via a constructed wetland system to the coastal marine area (Limeburners (Hāhā) Creek).
- Discharge primary and ultraviolet light treated wastewater via an emergency bypass outfall to the coastal marine area (Limeburners (Hāhā) Creek).
- Discharge contaminants to land from the base of the constructed wetland system.
- Discharge contaminants (primarily odour) to air from the WWTP.
- Use of a structure (emergency bypass outfall) within the coastal marine area (Limeburners (Hāhā) Creek).
- Discharge of treated wastewater to Council gardens and sport fields during drought conditions.
- Discharge of contaminants (primarily odour) to air associated with the discharge of wastewater to Council gardens and sport fields during drought conditions.

The council's reference number for this application is **APP.004352.01.07.**

The full public notice and application documents may be viewed on the Northland Regional Council's webpage at **[www.nrc.govt.nz/Consents/Notified-resource-consents](http://www.nrc.govt.nz/Consents/Notified-resource-consents)** and at the Regional Council's office at 36 Water Street, Whangarei.
