

NORTHLAND
EMERGENCY MANAGEMENT

GROUP

TSUNAMI SIREN TESTING

Northland's network of tsunami sirens in coastal communities will be tested on Sunday 25 September 2022.

The sirens will sound at 10am for 10 minutes and 10.30am for 30 seconds.

The twice-yearly checks are carried out at the beginning and end of daylight saving. A message will also be sent to users of the free Red Cross Hazard app.
