

Northland Regional Council
Far North General Constituency
Electing 1 Regional Councillor

Clyde SAMSON

My principal place of residence is in the Far North General Constituency area.

I live in Omapere, on the beautiful Hokianga Harbour with my wife and dog. Prior to my retirement 5 years ago I worked on Civil Projects involving

Earthworks, Roading, Structures, Drainage and various other infrastructure projects.

Many of these projects were for both Central Govt agencies and Local Bodies and frequently involved working alongside very sensitive environments ie: Beaches and Rivers.

Both development of land and marine areas are of particular interest to me. I am keen on selected development in the Far North, as the area becomes a destination of choice, as people flee the "Big Smoke".

But crucially, the infrastructure to support this growth must be in place before extra unsustainable pressure is placed on existing services.

We must work relentlessly on maintaining the quality of our Waterways or future generations will suffer.

Pests also are an issue in our region and I will support additional resources to eradicate them.
