# **NGĀ MAHI A WAI MĀORI – NORTHLAND WATER STORAGE AND USE PROJECT**

Project partners are investigating development of community reservoirs to store water both for use in drier times and to help grow our economy through horticulture development in the Kaikohe-Punakitere and Kaikohe-Waimate Taiamai areas.

As part of this, we're keen to speak with Māori landowners, farmers or growers in those areas about the opportunities a secure water supply could mean for you, your whanau and whenua.

Experts in horticulture and land development will be available to discuss these opportunities at 'drop in days' in Kaikohe (Citizens Advice offices 1-5pm Tuesday, 12 November) for Kaikohe-Punakitere landowners and Ohaeawai (Rugby Club rooms 1-5pm Thursday, 14 November) for Kaikohe-Waimate Taiamai landowners.

**Information is available online [www.nrc.govt.nz/waterstorage](http://www.nrc.govt.nz/waterstorage) or by phoning Andrew Carvell, Project Development Manager, (022) 540 8714 or Hone Tiatoa, Project Advisory Group member, (021) 085 99664.**
