

# NGĀ MAHI A WAI MĀORI – NORTHLAND WATER STORAGE AND USE PROJECT

Project partners are investigating the development of community reservoirs to store water both for use in drier times and to help grow our economy through horticulture development in the Mid-North and Kaipara areas.

As part of this, we're keen to speak with landowners, farmers or growers in those areas about the opportunities securing water supply could mean for you. Experts in horticulture and land development will be available to discuss these opportunities at 'drop in days' in Dargaville (Sportsville, Memorial Park, Logan Street; 10-2pm Tuesday, 18 February) and Ohaeawai (Rugby Club rooms, 6066 SH12; 10-2pm Wednesday, 19 February).

Further Information is available online **[www.nrc.govt.nz/waterstorage](http://www.nrc.govt.nz/waterstorage)**.
