Proposed Regional Plan for Northland

MINUTE AND DIRECTIONS OF THE HEARING PANEL

Minute 1

INTRODUCTION

- [1] At its meetings on 30 August 2017 and 21 November 2017 the Northland Regional Council (the Council) delegated to us the function of hearing the submissions on the Proposed Regional Plan for Northland (the Plan) and making recommendations to the Council on them.
- [2] The Hearing Panel is:
 - Rob van Voorthuysen (independent commissioner and chair)
 - Miria Pomare (independent commissioner)
 - Joce Yeoman (councillor)
- [3] Additional councillors are likely to join the Hearing Panel to hear the submissions on matters that were not included in the notified Plan or the Section 32 analysis report (see paragraphs [6] to [13] below for more information about these submissions). We understand that this will be confirmed at the March 2018 Council meeting.
- [4] Sections 41B to 41D of the RMA set out various powers the Hearing Panel has for conducting a hearing. Section 41A requires that before using these powers, we should satisfy ourselves that the scale of the hearings makes the exercise of these powers appropriate. Given the number of submissions received, the comprehensive nature of many of those submissions, and the fact that the Plan combines and consolidates a number of existing regional plans, the Hearing Panel is satisfied the scale and significance of the hearing warrants the exercise of powers under sections 41B to 41D of the RMA.

HEARINGS

- [5] The following preliminary information, directions and requests relate to submitters intending to appear at the hearings. Details of actual hearing venues and dates will be confirmed in a subsequent Minute.
 - Hearings are likely to commence July 2018. The intention is to hold hearings at Kaitaia, Kerikeri, Whangarei and a marae. Council staff will be in contact with submitters to confirm their preferred location, scheduling (appearance days and times) and any other needs (e.g. translator or projector).
 - The hearings will not be broken up into Plan topics. Accordingly, pursuant to section 41C(1) of the RMA, submitters who have lodged submissions on a range of topics or Plan provisions are directed to present all their evidence on the full range of matters they have submitted on during their single scheduled appearance at the Hearing. The exception to that is for submissions on matters that were not included in the Plan or Section 32 analysis report. Those submissions will be heard at the end of the hearing later in 2018.
 - The Section 42A report¹ will be made available five or six weeks before the start of the hearing, allowing submitters to have regard to its contents when preparing their evidence. It would be extremely helpful for the Hearing Panel if submitters could indicate in their evidence whether or not they agree or disagree (with reasons) with the

¹ The Section 42A Report is prepared by Council staff. It includes a discussion of the submissions and the amendments sought by submitters to the Plan. It recommends (with reasons) whether the submissions should be accepted or rejected. The Hearing Panel is not bound by the staff recommendations and the Panel weighs the staff advice along with the views of the submitters when making decisions on what to ultimately recommend to the Council.

staff recommendations that relate to their submissions.

- Pursuant to section 41B(3) of the RMA, submitters who intend to call expert evidence² in support of their submissions are directed to provide a written statement of that evidence to the Council no later than two weeks before the hearing commences.
- If submitters intend to provide written evidence themselves, or have non-expert people appear on their behalf, then they are requested and strongly urged to also provide a written statement of that evidence to the Council no later than two weeks before the hearing commences.
- All evidence received will be posted on the Council's website.
- Some submitters may wish to have legal counsel present legal submissions to the hearing in support of their submissions. If that is the case, then the Hearing Panel requests that those legal submissions are provided no later than three working days before the submitter is scheduled to be heard. This will better enable the Hearing Panel to consider the matters being addressed by those counsel.
- All pre-circulated evidence and legal submissions will be taken as read at the hearing.
 Accordingly, pursuant to section 41C(1) of the RMA, submitters are directed that they,
 their experts and their counsel will not be required to read any such material out loud at
 the hearing. Nor will they be required to read out loud their original submissions.
 Reading that material out loud at the hearing would be an inefficient use of time as the
 Hearing Panel members will have already read it.
- However, submitters, experts and counsel will be allowed to briefly highlight key points for the benefit of the Hearing Panel. The Panel members will then ask any questions they may have.
- Accordingly, pursuant to section 41C(1) of the RMA, submitters are directed that they
 will generally be scheduled speaking times of 20 minutes for each expert and counsel
 appearing and 15 minutes for all other presenters appearing, including themselves. If
 submitters consider that they will need more time than this then they are requested to
 contact the Council (see paragraph [15] below for contact details) and explain why they
 need more time in light of the process for evidence pre-circulation outlined above.

SUBMISSIONS ON MATTERS NOT ADDRESSED BY THE PLAN

- [6] A number of submitters have requested the inclusion of provisions in the Plan on a range of matters that were not included in the notified Plan nor in the Council's Section 32 analysis report. We understand that the most common request is for the inclusion of provisions addressing genetic engineering or genetically modified organisms.
- [7] Council officers have advised us that these submitters and the matters their submissions address are set out in Appendix 1 to this Minute.
- [8] We understand that some of the submissions on these matters may lack an analysis of these matters (in terms of the requirements of section 32 of the RMA), which makes it difficult for the Hearing Panel to assess the merits of the requests on the information currently available to it. The reason being that the Hearing Panel makes its decisions based on the evidence presented to it. The Hearing Panel considers that it behoves the submitters listed in Appendix 1 to provide further information by way of an analysis of their requests (if not already included in the submission), both to assist the Hearing Panel and to enable potential further submitters to decide whether or not they wish to submit in support of, or in opposition to, the requests.
- [9] We note that it is not the Council's responsibility to provide this analysis as the Council has not proposed Plan provisions on the Appendix 1 matters.
- [10] Accordingly, pursuant to section 41C(2) of the RMA, the Hearing Panel requests that the submitters listed in Appendix 1 provide further information (if such information has not already been provided in their original submissions), being both precise details of the new provisions

² Expert evidence is that written by qualified planners, engineers or scientists, for example, prepared in accordance with the Environment Court's Practice Note 2014 for expert witnesses.

requested (for example the actual wording of any new definitions, rules or policies addressing the matter raised) and an analysis of the merits of any such new provisions. Submitters addressing the same matter (for example genetically modified organisms) are encouraged to join together to provide a single set of this information, as this will avoid the Panel having to consider multiple analyses of the same matter.

- [11] The Hearing Panel recommends that the submitters refer to the Councils Section 32 analysis report for guidance on the type of analysis that would be of most assistance to the Panel.
- [12] It is important to note that any further information provided should not seek to materially change or expand the scope of the additions to the Plan that were sought in the original submission.
- [13] The Hearing Panel requests that the above further information is provided to the Council by **4pm on 1 March 2018.** The information must be in the format described in paragraph [16] of this Minute.

WEBSITE

[14] All information relevant to the hearings will be made available on the Council's website: www.nrc.govt.nz/newregionalplan

SERVICE ON THE COUNCIL

- [15] Any further written information, evidence or legal submissions addressed by this Minute, and any memorandum or application to the Hearing Panel, must be lodged:
 - By post addressed to the Northland Regional Council, Private Bag 9021, Whangarei Mail Centre, Whangarei 0148. Attention: Ben Lee; or
 - By hand delivery to Northland Regional Council, 36 Water Street, Whangarei; or
 - By email to <u>BenL@nrc.govt.nz</u>
- [16] All written information, evidence or legal submissions must be in either Microsoft WORD or PDF format. It should be 'unlocked' so that it is able to be easily annotated by members of the Hearing Panel as they read it.

EVIDENCE RECORDING

[17] An audio record of the hearing is to be made available on the Council's website as the hearing proceeds.

Rob van Voorthuysen for and on behalf of the Hearing Commissioners: 30 January 2018
