

Northland Regional Council  
Whangārei Central General Constituency  
Electing 1 Regional Councillor

---

---

**Jack CRAW**

Independent

My principal place of residence is in the Whangārei Central General Constituency area.

I'm standing for re-election because I want everyone to enjoy clean water, a healthy environment and better community participation in decision making.

Building on my strong record of delivering for Northlanders, this term I'll step up climate action; fight for rail and four lanes to Marsden Point; demand further progress on freshwater quality, lobby hard for free public transport as an effective climate response, protect community ownership of public assets, and ensure Northland is well-represented in the future of local government review.

Last term I achieved the reinstatement of Northland's GM-free status, action on kauri dieback, and over \$11M in Government funding for biosecurity programmes. I was previously Auckland's Biosecurity Manager (11 years), a science manager in Victoria and a consultant in NZ and the Pacific.

Northland's facing massive environmental challenges and we must save ratepayers from future financial risks. I have the skills and experience to meet these challenges.
