Katete Moving forward

Nau mai Welcome

Toitū te Whenua If the land is well

Toitū te Moana If the sea is well

Toitū te Tangata The people will thrive

He Mihi mo te Mahere-ā-Tau

Ko te Amorangi ki mua, ko te hāpai ō ki muri.

Otirā, ko Te Atua kei mua, kei muri iho i ngā mea katoa,

e tūmanakohia nei tātou i runga i te mata o te whenua.

Whai muri atu i tēnā, me mihi ki o tātou mate maha, e

hinga mai nei, e hinga atu rā mai Tāmaki ki Te Rerenga Wairua,

haere koutou e ngā mate, haere, haere, haere.

Ka whakahokia mai ngā kōrero ki waenganui i a tātou te kanohi ora, e noho mai ana ki ēra ō tātou marae kāinga huri noa i ngā to pito katoa o Te Taitokerau, tēnā koutou, tēnā koutou, tēnā koutou katoa.

E whai ake i raro nei ngā kupu whāriki mō te Mahere-ā-Tau 2022/23

This mihi is an acknowledgement and greeting to the people of Northland and proudly introduces the Annual Plan 2022/23

Surveying the health of Otiria Stream

Message from the Chair and Chief Executive

Over the past year as Northlanders, we've collectively pulled together to weather the challenges posed by the COVID-19 pandemic. It's far from business as usual – there's been change in the way we live and how we work, yet despite that, our region continues to thrive. We're undoubtedly also entering an era of transformational change as multiple large-scale government reforms loom on the horizon. As a council, we'll lean in to meet these coming challenges on your behalf and for our communities.

This is the first Annual Plan since the adoption of our Long Term Plan 2021-2031 in June last year. It gives us a chance to account for real-time challenges that arise as we progress our work, and year-to-year fluctuations that are a natural part of financial planning. In this Annual Plan, we've only made a couple of changes but before we get to the details, we need to mention there are changes coming to the makeup of your council – good changes.

This year we formally introduce Māori seats for the first time, with two dedicated members joining council after the local elections in October. Northland has shown leadership by becoming the only region in New Zealand where all councils have adopted Māori wards and representation, and that's something to be proud of. It means over 20% of the region's next intake of councillors will be Māori and we're looking forward to growing our cultural competency of Te Ao Māori as part of our council.

Everything we do is geared towards working with, and supporting, our various communities to make sure they can realise their environmental aspirations. When we say we're committed to building meaningful relationships, and giving effect to Te Tiriti, we mean it. This can be seen in some of the results we've recently achieved in flood protection works in partnership with communities such as Panguru, Otiria and Moerewa.

Northland is also leading the way nationally in our approach to addressing climate change. Along with the three other Northland councils, we've developed and adopted the country's first region-wide climate adaptation strategy. This means we're working together across Te Taitokerau as we look to tackle the serious issues we collectively face as the climate continues to change.

In this Annual Plan we're responding to increased costs for the replacement of our maritime vessel, the Waikare, which operates out of the Bay of Islands, as well as for the provision of the Whangārei CityLink public transport service. The cost of running buses has increased substantially as the price of fuel has risen, and we need to make some changes to keep our services running and to meet the expectations of Whangārei residents. These changes include the reallocation of some funds for the 2022/23 year, and an increase to targeted rates for the Whangārei area.

With the upcoming elections, and Malcolm retiring as chief executive, an exciting period of new leadership beckons for this council. This new leadership will navigate us through coming changes in areas such as the Three Waters reforms, changes to freshwater management and the Resource Management Act, as well as reforms on the structure and function of local government itself. There is a lot going on.

None of us know what the future holds, but what we do know is that council is committed to developing more inclusive decision-making processes and collaborative governance that honours Te Tiriti, and which helps us better deliver the important functions we provide.

P Dune

Penny Smart Malcolm Nicolson

Chair Chief Executive Officer

Tūtakitakitia i te iwi kāinga Meet your locals

E pā ana ki tēnei Mahere ā tau About this Annual Plan 2022/23

Our annual planning documents often acknowledge that change is constant, particularly when combining political and natural environments with global financial markets.

This Annual Plan is the result of 12 months of work, which began with a standard review of our activities and funding sources to make sure that we're still on track to deliver the work we'd committed to last year in our Long Term Plan 2021-2031.

In February 2022 council finalised the proposals for the consultation of this Annual Plan, which comprised an additional \$1.7M of capital spend toward the construction of a new maritime vessel and \$188k of operational spend for Whangārei's CityLink bus service.

Talking to our communities is a key part of developing any plan, and this Annual Plan was no different. Our consultation document set out the changes that were proposed, and the consultation period ran from 26 March to 29 April 2022. Fourteen submissions were received during the this time, which included feedback on both consulted and non-consulted topics.

What we approved

During deliberations, council approved the following consulted capital and operational spend:

Replacement of the Waikare

The construction of a new maritime vessel for council was approved in our Long Term Plan 2021-2031, with \$1.6M of capital set aside in the budget. Since then, construction costs have almost doubled, and an additional \$1.7M is required to complete the build. Council will invest the original \$1.6M set aside for the new vessel, borrow the full \$3.3M to design and build it, and repay this from the Regional council services rate. The change in tack will not increase rates in 2022/23, however ratepayers can expect an increase from 2023 onwards, currently estimated at an additional \$0.80 on the average annual rates bill.

Whangārei CityLink bus service

As planned in our Long Term Plan 2021-2031 we're working to increase and improve the Whangarei CityLink public transport service, to make sure it's accessible and used. The cost of delivering the service has increased substantially as a result of increased running costs, changing legislation, and reduced passenger numbers throughout the pandemic. The service remains important, producing lower demand for parking, reduced emissions, and provision of basic services to those without other means of transport. So to keep the service operating at a level Whangārei residents expect, council have reallocated funds that were set aside for increased bus services in conjunction with Whangarei District Council's T2 lane work (now delayed), and approved an additional operational spend of \$188k.

The additional operational spend will be met from the targeted Whangārei transport rate, increasing rates in the Whangārei district by an average of \$4.80 per annum.

The above changes to council's capital and operational spend equates to an average 13.89% increase in rates, which is 0.1% above the 13.79% previously approved for the year.

Types of rates

The amounts of the rates stated include the council's GST obligations (GST Incl.).

The council does not accept lump sum contributions in respect of any targeted rate.

Uniform annual general charge

The council does not set a uniform annual general charge.

Targeted region-wide rates

The council sets five rates, which are applied as targeted region-wide rates – the council services rate, land and freshwater management rate, pest management rate, flood infrastructure rate and the emergency and hazard management rate. Targeted region-wide rates are assessed on all rateable properties in the Northland region.

Council services rate

What it funds

The council uses the council services rate to fund some activities that are carried out under the Resource Management Act 1991, the Local Government Act 2002, the Maritime Transport Act 1994, maritime bylaws and any other activities that are not covered by any other funding source. This rate will fund the costs remaining after appropriate user fees and charges and a share of investment income, where available, have been taken into account.

How it is set

The council services rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. The rate is calculated on the total projected capital value, as determined by the certificate of projected valuation of each constituent district in the Northland region. The rate is differentiated by location in the Northland region, and assessed as a fixed amount per each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts and on each rating unit in the Kaipara district. An additional \$1.73 per SUIP of a rating unit is to be assessed across the Whangārei constituency to provide \$77,751 to fund the ongoing maintenance of the Hātea River channel.

How much is the rate?

The estimated total council services rate amounts to \$14,679,709 for the 2022/23 financial year.

The council services rate payable in respect of each rating unit in the Kaipara district, and each SUIP of a rating unit in the Far North and Whangārei districts, will be set as shown in the following table.

The funding impact statement recognises that a differentiated, fixed amount on each rating unit (property) or SUIP of a rating unit links better to resource management planning, strategic planning, education, public advice, the public-good elements of issuing resource consents, regional advocacy and transport planning where the link to land value is very weak.

Council services rate

District	Rate	Rateable unit
Far North	\$140.02	per SUIP
Kaipara	\$169.14	per rating unit
Whangārei	\$158.26	per SUIP

Land and freshwater management rate

What it funds

This land value-based rate is used to fund activities that are carried out under the Soil Conservation and Rivers Control Act 1941, the Resource Management Act 1991 and the National Policy Statement for Freshwater Management, including its amendments.

The rate will specifically fund land and freshwater management activities. This rate will fund the costs remaining after appropriate user fees and charges, grants and subsidies, and a share of investment income (where available) have been taken into account. The land and freshwater management rate is assessed across all sectors of the Northland community and recognises that the benefit derived from the funded activities is strongly linked to land values.

How it is set

The land and freshwater management rate is a targeted rate authorised by the Local Government (Rating) Act 2002. The rate is assessed on the land value of each rateable rating unit in the region. The rate is set per dollar of the land value. The rate per dollar of land value is different for each constituent district because the rate is allocated on the basis of projected land value, as provided for in section 131 of the Local Government (Rating) Act 2002. The council does not apply a differential on this rate.

How much is the rate?

The estimated total land and freshwater management rate is \$11,642,492 for the 2022/23 financial year. The following table shows the actual and equalised land value for each district, and the rate per \$100,000 of land value for each district based on the equalised land values. If all districts had the same valuation date, each district would have the same rate per \$100,000 of actual land value.

Land and freshwater management rate

District	Actual land value \$(000)s	Equalised land value \$(000)s	Rate per \$100,000 of actual land value
Far North	10,194,639	14,313,191	\$38.35
Kaipara	6,039,908	7,908,075	\$35.65
Whangārei	20,400,298	20,743,990	\$27.80

Pest management rate

What it funds

The council uses the pest management rate to fund activities that are carried out under the Biosecurity Act 1993. This rate will fund the costs remaining after appropriate user fees and charges, grants and subsidies, and a share of investment income (where available) have been taken into account. For new activities funded by this rate that relate to the implementation of the Northland Regional Pest Management Plan, consideration is given to the requirements of section 100T of the Biosecurity Act 1993. An analysis of Section 100T requirements was carried out and considered by council as part of the process of consulting on and adopting the Long Term Plan 2021-2031, and can be found in the rates section of that document. The Council considers that the analysis has not changed for the 2022/23 financial year.

The pest management rate will specifically fund pest plant, disease, and pest animal management activities.

How it is set

The pest management rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. The rate is calculated on the total projected capital value, as determined by the certificate of projected valuation of each constituent district in the Northland region. The rate is differentiated by location in the Northland region and assessed as a fixed amount per each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts and on each rating unit in the Kaipara district.

How much is the rate?

The estimated total pest management rate amounts to \$7,484,204 for the 2022/23 financial year.

The pest management rate is payable in respect of each rating unit in the Kaipara district, and each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts, and will be set as shown in the following table. This funding impact statement recognises that a differentiated, fixed amount on each rating unit (property), or SUIP of a rating unit, links better to pest management activities, where the link to land value is very weak.

Pest management rate

District	Rate	Rateable unit
Far North	\$71.77	per SUIP
Kaipara	\$86.69	per rating unit
Whangārei	\$80.23	per SUIP

Flood infrastructure rate

What it funds

This rate will partially or fully fund the development of flood protection infrastructure in communities across Northland that meet specified criteria as approved by the council (as set out in infrastructure strategy included in the Long Term Plan 2021–2031). Targeted rates will be used to fund the portion of flood protection infrastructure that is not met by the flood infrastructure rate, and operational river schemes works.

How it is set

The flood infrastructure rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. This rate is assessed as a fixed amount on each rateable separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts, and each rateable rating unit in the Kaipara district.

How much is the rate?

The estimated total Northland flood infrastructure rate amounts to \$3,189,312 for the 2022/23 financial year. The rate for each rating unit in the Kaipara district and each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts is set as \$33.24.

Emergency and hazard management rate

What it funds

The council uses the emergency and hazard management rate to fund activities that are carried out under the Civil Defence Emergency Management Act 2002, Resource Management Act 1991, Soil Conservation and Rivers Control Act 1941, and climate change adaptation planning activities. This rate will fund the costs remaining after appropriate user fees and charges, grants and subsidies, and a share of investment income (where available), have been taken into account.

How it is set

The emergency and hazard management rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. The rate is calculated on the total projected capital value, as determined by the certificate of projected valuation of each constituent district in the Northland region. The rate is differentiated by location in the Northland region, and assessed as a fixed amount per each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts, and on each rating unit in the Kaipara district.

How much is the rate?

The estimated total emergency and hazard management rate amounts to \$4,186,783 for the 2022/23 financial year.

The emergency and hazard management rate payable in respect of each rating unit in the Kaipara district, and each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts of the Northland region, will be set as shown in the following table.

This funding impact statement recognises that a differentiated, fixed amount on each rating unit or SUIP of a rating unit links better to emergency and hazard management activities where the link to land value is weak.

Emergency and hazard management rate

District	Rate	Rateable unit
Far North	\$40.15	per SUIP
Kaipara	\$48.50	per rating unit
Whangārei	\$44.88	per SUIP

Specific targeted rates

The following specific targeted rates are for 2022/23.

Regional sporting facilities rate

What it funds

The council will collect the regional sporting facilities rate to contribute funds towards the development of sporting facilities across Northland that are of regional benefit. Potential recipient projects will be determined through ongoing work on the Northland Sports Facilities Plan.

How it is set

The regional sporting facilities rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. This rate is assessed as a fixed amount on each rateable separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts, and each rateable rating unit in the Kaipara district.

How much is the rate?

The estimated total Northland regional sporting facilities rate amounts to \$1,592,737 for the 2022/23 financial year. The rate for each rating unit in the Kaipara district and each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts is set as \$16.60.

How is the rate applied?

This rate is applied to the development of sporting facilities that are of regional benefit.

Emergency services rate

What it funds

The council will collect the emergency services rate to provide a funding pool for selected organisations whose primary purpose is to save lives that are in immediate or critical danger, or to respond to serious injury. The funds must be applied to the provision of services in Northland. The fund recipients will be granted funding for a three-year period.

How it is set

The emergency services rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. This rate is assessed as a fixed amount on each rateable separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts, and each rateable rating unit in the Kaipara district.

How much is the rate?

The estimated total emergency services rate is \$1,112,997 for the 2022/23 financial year.

The rate for each rating unit in the Kaipara district and each separately used or inhabited part (SUIP) of a rating unit in the Far North and Whangārei districts is set as \$11.60.

How is the rate applied?

The emergency services rate will be applied to approved recipients.

Regional economic development rate

What it funds

The regional economic development rate will fund activities that support the economic wellbeing of Northland, and community infrastructure.

How it is set

The regional economic development rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. The rate is assessed on the land value of each rateable rating unit in the region. The rate is set per dollar of land value. The rate per dollar of land value is different for each constituent district as the rate is allocated on the basis of projected land value, as provided for in section 131 of the Local Government (Rating) Act. The council does not apply a differential on this rate.

How much is the rate?

The estimated total regional infrastructure rate is \$788,540 for the 2022/23 financial year.

The following table shows the actual and equalised land value for each district, and the rate per \$100,000 of land value for each district, based on the equalised land values. If all districts had the same valuation date, each district would have the same rate per \$100,000 of actual land value.

Regional economic development rate

District	Actual land value \$(000)s	Equalised land value \$(000)s	Rate per \$100,000 of actual land value
Far North	10,194,639	14,313,191	\$2.60
Kaipara	6,039,908	7,908,075	\$2.42
Whangārei	20,400,298	20,743,990	\$1.88

How is the rate applied?

This rate is applied to the investment and growth reserve.

Whangārei transport rate

What it funds

This rate forms the local contribution required to fund the Whangārei bus passenger transport services, the administration of the Whangārei Total Mobility scheme, and provision of other public transport services in the Whangārei district.

How it is set

The Whangārei transport rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. The rate is a fixed amount assessed on each rateable separately used or inhabited part (SUIP) of a rating unit in the Whangārei district.

How much is the rate?

The estimated total Whangārei transport rate is \$1,733,958 for the 2022/23 financial year. The rate will be set at \$38.47 for each rateable separately used or inhabited part (SUIP) of a rating unit in the Whangārei district.

How is the rate applied?

The Whangārei transport rate will be applied to the passenger transport administration activity to subsidise bus passenger transport, administration of the Total Mobility service, and provide other public transport services in the Whangārei district.

Far North transport rate

What it funds

This rate funds the Far North bus passenger transport services, and the investigation and provision of other public transport services in the Far North district.

How it is set

The Far North transport rate is a targeted rate as authorised by the Local Government (Rating) Act 2002. The rate is a fixed amount assessed on each rateable separately used or inhabited part (SUIP) of a rating unit in the Far North district.

How much is the rate?

The estimated total Far North district transport rate is \$319,525 for the 2022/23 financial year. The rate will be set at \$8.79 for each rateable separately used or inhabited part (SUIP) in the Far North district.

How is the rate applied?

The Far North district transport rate will be applied to the passenger transport administration activity to subsidise provision of bus passenger transport, and the investigation and provision of other public transport services in the Far North district.

Note: Oruku Landing fit-out rate

The conditions of this funding weren't met so the money will no longer be spent, and we won't be setting this extra rate. While this won't affect your rates for this year, as the targeted rate was due to kick in with the funding in 2023/24, the impact on overall rates will be reflected in next year's Annual Plan.

Awanui River management rate

What it funds

This rate funds capital and operational works on the Awanui River flood management scheme.

How it is set

The Awanui River management rate is a targeted rate set under the Local Government (Rating) Act 2002, set differentially by location and area of benefit as illustrated by the following table and maps. The rate is set differentially as follows:

Awanui river management rate

Category	Description	Rate	Rateable unit
1	Urban rate class UA (floodplain location) \$285.53 direct benefit plus \$28.19 indirect benefit per separately used or inhabited part of a rating unit.	\$313.72	Per SUIP
2	Urban rate classes UF (higher ground) \$28.19 direct benefit plus \$28.19 indirect benefit per separately used or inhabited part of a rating unit.	\$56.38	Per SUIP
3	Commercial differential factor applicable to urban rate classes UA and UF, and rural hectare rate classes A & B, C, E and F.	3.0 times the appropriate rate	Urban rate classes UA and UF, and rural hectare rate classes A & B, C, E and F
4	Rural rate differentiated by class, \$11.75 per separately used or inhabited part of a rating unit of indirect benefit, plus a rate per hectare for each of the following classes of land in the defined Kaitaia flood rating district as illustrated in the following maps and table.	\$11.75	Per SUIP

The rating classifications and the rate charged are illustrated in the following maps and table:

Awanui River scheme targeted rate

Awanui scheme targeted rate - Kataia detail

Awanui River scheme targeted rate - Awanui detail

Awanui river management rate

Class	Description	Rate per hectare
A & B	High benefit; rural land which receives high benefit from the Awanui Scheme works due to reduced river flooding risk and/or reduced duration of flooding and/or reduced coastal flooding.	\$23.33
С	Moderate benefit; land floods less frequently and water clears quickly.	\$10.90
E	Land in flood-ways and ponding areas that receive no benefit and land retained in native bush that provides watershed protection.	-
F	Contributes run-off waters, and increases the need for flood protection.	\$0.77

For more detailed information on rating class boundaries, please refer to the $\underline{\text{Awanui Scheme Asset Management Plan}}$, which is available on our website.

How much is the rate?

The estimated total Awanui River management rate is \$1,028,775 for the 2022/23 financial year. The revenue sought from each category of rateable land will be as follows:

Awanui river management rate

Class	Rural or urban	Total revenue
A & B	Rural	\$131,320
С	Rural	\$16,906
F	Rural	\$14,538
Indirect benefit	Rural	\$20,282
Urban A	Urban	\$458,659
Urban F	Urban	\$37,492
Commercial differential	Majority urban	\$349,578
Total	\$1,028,775	

How is the rate applied?

The rate is applied 100% to Awanui River flood management scheme works, which form part of the river management activity.

Kaihū River management rate

What it funds Kaihū River targeted rate area

This rate funds channel maintenance works on the Kaihū River flood management scheme.

How it is set

The Kaihū River management rate is a targeted rate set under the Local Government (Rating) Act 2002, set differentially by location and area of benefit as illustrated by this map and the following table.

The council will set the rate differentially as follows:

- Class A land on the floodplain and side valleys downstream of the Rotu Bottleneck; rate is applied per hectare of land.
- Class B land on the floodplain and tributary side valleys between Ahikiwi and the Rotu Bottleneck and in the Mangatara Drain catchment upstream of SH12; rate is applied per hectare of land.
- Class F (Catchment rate) balance of land within the Kaihū River rating area not falling within class A and class B or the excluded area; rate is applied per hectare of land.
- Urban contribution a contribution from Kaipara District Council instead of a separate rate per property.

The rating classifications and the rate charged are as follows:

Kaihū river management rate

Class	Description	Rate per hectare
А	Land on the floodplain and side valleys downstream of the Rotu Bottleneck.	\$23.13
В	Land on the floodplain and tributary side valleys between Ahikiwi and the Rotu Bottleneck and in the Mangatara Drain catchment upstream of SH12.	
F	Balance of rateable land within the Kaihū River rating area not excluded from liability for this rate.	\$1.60

Urban contribution	Per annum
A contribution from Kaipara District Council instead of a separate rate per property.	\$5,015

How much is the rate?

The estimated total Kaihū River management rate is \$79,869 in the 2022/23 financial year. The revenue sought from each category of rateable land will be as follows:

Kaihū river management rate

Class	Total revenue
А	\$31,798
В	\$12,148
F	\$30,908
Urban contribution	\$5,015
Total	\$79,869

How is the rate applied?

The rate is applied 100% to Kaihū River flood management scheme works, which form part of the river management activity.

Kāeo-Whangaroa rivers management rate

What it funds

This rate funds operational and capital flood scheme works in Kāeo and Tauranga Bay, and minor river maintenance works to clear flood debris and gravel from streams from Taupō Bay to Te Ngaire.

How it is set

The Kāeo-Whangaroa rivers management rate is a targeted rate set under the Local Government (Rating) Act 2002, set on a uniform basis in respect of each rateable separately used or inhabited part (SUIP) of a rating unit falling within the former Whangaroa ward rating rolls of 100-199, as illustrated in this map.

Kāeo-Whangaroa River targeted rate area

How much is the rate?

The estimated total Kāeo-Whangaroa rivers management rate is \$118,043 in the 2022/23 financial year. The rate is set at \$54.52 and will be assessed on each rateable separately used or inhabited part (SUIP) of a rating unit falling between rating rolls 100-199 of the former Whangaroa ward as illustrated in this map.

How is the rate applied?

The rate is applied 100% to Kāeo-Whangaroa rivers flood management scheme works, which form part of the river management activity.

Whangarei urban rivers management rate

What it funds

This rate funds the operational costs and capital costs of flood scheme works for urban Whangārei.

How it is set

The Whangārei urban rivers management rate is a targeted rate set under the Local Government (Rating) Act 2002, and assessed on all rateable properties defined by reference to the differential categories, and differentiated by location (see map on following page), and, for some categories, land use. It is set as a fixed amount per each separately used or inhabited part (SUIP) of a rating unit, as follows:

Whangārei urban rivers management rate

Category	Description	Rate	Rateable unit
1	Commercial properties in the Whangārei CBD flood area.	\$351.22	Per SUIP
2	Residential properties in the Whangārei CBD flood area.	\$172.08	Per SUIP
3	Properties in the contributing water catchment area (including properties falling in the Waiarohia, Raumanga, Kirikiri and Hātea River catchments).	\$42.13	Per SUIP

The differential recognises the different categories of beneficiaries to the scheme and the properties that contribute to flooding in the Whangārei CBD. Properties in the contributing water catchment area contribute run-off from rainfall to the CBD, which exacerbates and contributes to flooding, and these properties also receive a wider benefit from reduced flooding of the Whangārei CBD. The commercial and residential properties in the Whangārei CBD flood area are the primary beneficiaries due to reduced flood risk. Commercial properties benefit more significantly than residential properties due to improved business continuity from reduced flooding.

Residential properties in the Whangārei central business district (CBD) flood area are defined as all rating units that are used principally for residential or lifestyle residential purposes, including retirement villages, flats, etc. Residential properties also include multi-unit properties, these being all separate rating units used principally for residential purposes, and on which is situated multi unit-type residential accommodation that is used principally for temporary or permanent residential accommodation and for financial reward, including, but not limited to, hotels, boarding houses, motels, tourist accommodation, residential clubs and hostels, but excluding any properties that are licensed under the Sale and Supply of Alcohol Act 2012.

Commercial properties in the Whangārei CBD flood area are all separate rating units used principally for commercial, industrial or related purposes or zoned for commercial, industrial or related purposes in accordance with the Whangārei district plan. For the avoidance of doubt, this category includes properties licensed under the Sale and Supply of Alcohol Act 2012, and private hospitals and private medical centres.

Whangārei urban rivers management rate area map

How much is the rate?

The estimated total Whangārei urban rivers management rate is \$1,142,580 in the 2022/23 financial year. The revenue sought from each category is as follows:

Whangārei urban rivers management rate

Category	Description	Total revenue
1	All commercial properties in the Whangārei CBD flood area.	\$354,030
2	All residential properties in the Whangārei CBD flood area.	\$27,876
3	All properties in the contributing water catchment area (including properties falling in the Waiarohia, Raumanga, Kirikiri and Hātea River catchments).	\$760,674
Total		\$1,142,580

How is the rate applied?

The rate is applied 100% to Whangārei urban rivers flood scheme works, which form part of the river management activity.

Taumārere rivers management rate

What it funds

This rate funds operational and capital flood scheme works in the Taumārere catchment to reduce flooding at Otiria and Moerewa, and Kawakawa.

How it is set

The Taumārere rivers management rate is a targeted rate set under the Local Government (Rating) Act 2002, set on a uniform basis in respect of every separately used or inhabited part of a property (SUIP) that is located within the Far North District and within and/or intersects the Taumārere rivers management rate catchment area.

The Taumārere rivers management rate ("Taumārere catchment") rating area is defined as the boundary of the amalgamation of the Freshwater Ecosystems of New Zealand database catchment numbers: 4044, 4059, 4121, 4126, 4149, 4160, 8693, 8695, 8721, 8729, 8733, 8753, 8754, 8759, 8765, 8771, 8773, 8776, and 10041, as so many are located in the Far North district. The exclusion to this are those SUIPs that only intersect inside the Taumārere rivers management rate catchment boundary (refer map for catchment boundary) by a maximum of 10m.

Northland Record Rote Area Taumärere Targeted Rate Area

Taumārere rivers targeted rate area

How much is the rate?

The estimated total Taumārere rivers management rate is \$113,278 in the 2022/23 financial year. The rate is set at \$67.15 and will be assessed on each rateable separately used or inhabited part (SUIP) of a rating unit as defined above.

How is the rate applied?

The rate is applied 100% to Taumārere River flood management scheme works, which form part of the river management activity.

Further rating information

Each of Northland's three district councils is appointed as a collector for Northland Regional Council in terms of section 53 of the Local Government (Rating) Act 2002. This means that district councils issue rates assessments and invoices for Northland Regional Council's rates. They also collect the rates.

Northland Regional Council (council) has adopted policies regarding remission of rates and penalties, postponement of rates, and early payment of rates. The council remits rates and penalties, postpones payment of rates, applies charges for postponement of rates, and applies discounts for early payment of rates in accordance with these policies. It also resolves that penalties will be added to unpaid rates. The district councils record these transactions on the rating information database and rates records, which they maintain on behalf of council.

Separately used or inhabited part of a rating unit definitions

Northland Regional Council has adopted the same definitions as the Far North and Whangārei district councils to determine a separately used or inhabited part of a rating unit (SUIP) as follows:

Far North district SUIP definition

Where rates are calculated on each separately used or inhabited part of a rating unit, the following definitions will apply:

- Any part of a rating unit that is used or occupied by any person, other than the ratepayer, having a right to use or inhabit that part by virtue of a tenancy, lease, licence, or other agreement.
- Any part or parts of a rating unit that is used or occupied by the ratepayer for more than one single use.

The following are considered to be separately used parts of a rating unit:

- individual flats or apartments
- separately leased commercial areas that are leased on a rating unit basis
- vacant rating units
- single rating units that contain multiple uses such as a shop with a dwelling, and
- a residential building or part of a residential building that is used, or can be used, as an independent residence. An independent residence is defined as having a separate entrance, separate cooking facilities (e.g. cooking stove, range, kitchen sink, etc) together with living and toilet/bathroom facilities.

The following are not considered to be separately used or inhabited parts of a rating unit:

- a residential sleep-out or granny flat that does not meet the definition of an independent residence
- a hotel room with or without kitchen facilities
- a motel room with or without kitchen facilities, and
- individual offices or premises of business partners.

Whangārei district SUIP definition

A separately used or inhabited part is defined as:

- any part of a property (rating unit) that is separately used or occupied, or is intended to be separately used or occupied by any person, other than the ratepayer, having a right to use or inhabit that part by virtue of a tenancy, lease, license, or other agreement
- any part of a rating unit that is separately used, or occupied, or intended to be separately used or occupied by the ratepayer.

Examples include:

- each separate shop or business activity on a rating unit
- each occupied or intended to be occupied dwelling, flat, or additional rentable unit (attached or not attached) on a rating unit
- individually tenanted flats, including retirement units, apartments and town houses (attached or not attached) or multiple dwellings on Māori freehold land on a rating unit

Postponement charges for postponed rates in the Far North district

Pursuant to the Local Government (Rating) 2002 Act, council will charge a postponement fee on all rates that are postponed under any of its postponement policies. The postponement fees are as follows:

- application fee: \$300
- administration fee: \$50 per annum
- financing fee on all postponements: currently set at 3.00% per annum but may vary to match council's average cost of funds.

At council's discretion, all these fees may be added to the total postponement balance.

Postponement charges for postponed rates in the Whangarei district

Pursuant to the Local Government (Rating) 2002 Act, council will charge a postponement fee on some rates postponements, as per its postponement policies. The application form will state the details of this charge.

Equalisation of rates

Until recently, each district in Northland was independently revalued by Quotable Value (over a three-yearly cycle, one district per year). Whangārei district now uses Opteon for its valuations. To ensure that property valuations in the remaining two districts are current, a registered valuer also provides the regional council with "an estimate of projected value" of property values in those districts (as provided for in Section 131 of the Local Government (Rating) Act 2002).

The council services rate, pest management rate, and the emergency and hazard management rate are set by reference to the projected capital value of each

district. The land and freshwater management rate, and regional economic development rate, are set according to projected land values in each district – for these three rates, remember that if all the districts had the same valuation date, then each district would have the same rate per dollar of actual land value.

Inspection and objection to council's rating information database

The rating information database for each district is available at the relevant district council and Northland Regional Council. The rating information database for each district can also be found on each district council's website. The website addresses are:

www.fndc.govt.nz

www.wdc.govt.nz

www.kaipara.govt.nz

Ratepayers have the right to inspect rating information database records and can object on the grounds set out in the Local Government (Rating) Act 2002.

Summary table of rates

The following table illustrates the distribution of the regional rates on the forecast basis for the 2022/23 financial year, with the 2021/22 long term plan regional rates for comparison. The actual and projected apportionment of rates among Northland's districts is as follows, based on the district valuation roll as at 30 June in each year:

District valuation roll

Estimate for 30 June 2022

For more details on the different types of rates, see 'Types of rates'.

How much will my rates be?

Presented on the next pages are some example rates for properties in each of Northland's three districts. The tables show the total rates that would apply to different groups of ratepayers under this Annual Plan.

Note that the rates detailed in this plan are worked out using estimated land or capital values (where applicable) – actual rates will be set using district valuation rolls as at 30 June 2022, so they may differ slightly.

^{**} Amount net of remissions and inclusive of GST

Ratepayers in the Far North district

Far North district ratepayers will be assessed:

- 1. A targeted council services rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 2. A targeted land and freshwater management rate assessed on the land value of each rateable rating unit;
- 3. A targeted pest management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 4. A targeted, fixed flood infrastructure rate assessed on each separately used or inhabited part of the rating unit;
- 5. A targeted emergency and hazard management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 6. A targeted, fixed regional sporting facilities rate assessed on each separately used or inhabited part of the rating unit;
- 7. A targeted regional economic development rate assessed on the land value of each rateable rating unit;
- 8. A targeted, fixed emergency service rate assessed on each separately used or inhabited part of the rating unit; and
- 9. A targeted, fixed Far North transport rate assessed on each separately used or inhabited part of the rating unit.

Far North district ratepayers in the Awanui River management rate area will be assessed:

- 1. A targeted council services rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 2. A targeted land and freshwater management rate assessed on the land value of each rateable rating unit;
- 3. A targeted pest management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 4. A targeted, fixed flood infrastructure rate assessed on each separately used or inhabited part of the rating unit;
- 5. A targeted emergency and hazard management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 6. A targeted, fixed regional sporting facilities rate assessed on each separately used or inhabited part of the rating unit;
- 7. A targeted regional economic development rate assessed on the land value of each rateable rating unit;
- 8. A targeted, fixed emergency service rate assessed on each separately used or inhabited part of the rating unit;
- 9. A targeted, fixed Far North transport rate assessed on each separately used or inhabited part of the rating unit; and
- 10. A targeted Awanui River management rate, classes UA/UF, A, B, C, E and F differentiated by location and area of benefit as defined in the Awanui river flood management scheme.

Plus Awanui River Management Rates applicable to:		
- Rural Commercial A & B	7,010.75	7,017.11
- Rural Class A & B	2,344.75	2,347.11
- Rural Class C	1,101.75	1,107.11
- Rural Class E	11.75	12.11
- Rural Class F	88.75	89.11

^{1.} Commercial properties for the Awanui River management rate are subject to the 3:1 commercial differential: on \$313.72 for urban commercial class UA equating to \$941.16; on \$56.38 for urban commercial class UF equating to \$169.14; on \$23.33 per hectare for rural commercial class A/B equating to \$69.99; on \$10.90 per hectare for rural commercial class C equating to \$32.70; and on \$0.77 per hectare for rural commercial class F equating to \$2.31.

The rural rate also includes a single rate of \$11.75 per SUIP to reflect the indirect benefit. Note that commercial and industrial activities in rural zones that have a lower area and land value will be rated less than the illustrated differentials above – refer to rating factors previously set out (and multiply by the differential factor of 3).

Far North district ratepayers in the Kāeo-Whangaroa rivers management rate area will be assessed:

- 1. A targeted council services rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 2. A targeted land and freshwater management rate assessed on the land value of each rateable rating unit;
- 3. A targeted pest management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 4. A targeted, fixed flood infrastructure rate assessed on each separately used or inhabited part of the rating unit:
- 5. A targeted emergency and hazard management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 6. A targeted, fixed regional sporting facilities rate assessed on each separately used or inhabited part of the rating unit;
- 7. A targeted regional economic development rate assessed on the land value of each rateable rating unit;
- 8. A targeted, fixed emergency service rate assessed on each separately used or inhabited part of the rating unit;
- 9. A targeted, fixed Far North transport rate assessed on each separately used or inhabited part of the rating unit; and
- 10. A targeted Kāeo-Whangaroa rivers management rate set on a uniform basis in respect of each separately used or inhabited part of a rating unit for properties falling within the former Whangaroa ward (rating rolls 100-199).

Far North district ratepayers in the Taumarere rivers management rate area will be assessed:

- 1. A targeted council services rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 2. A targeted land and freshwater management rate assessed on the land value of each rateable rating unit;
- 3. A targeted pest management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 4. A targeted, fixed flood infrastructure rate assessed on each separately used or inhabited part of the rating unit;
- 5. A targeted emergency and hazard management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 6. A targeted, fixed regional sporting facilities rate assessed on each separately used or inhabited part of the rating unit;
- 7. A targeted regional economic development rate assessed on the land value of each rateable rating unit;
- 8. A targeted, fixed emergency service rate assessed on each separately used or inhabited part of the rating unit:
- 9. A targeted, fixed Far North transport rate assessed on each separately used or inhabited part of the rating unit; and
- 10. A targeted Taumārere rivers management rate set on a uniform basis in respect of each separately used or inhabited part of a rating unit for properties indicated in the area of benefit as defined in the Taumārere river flood management scheme.

Ratepayers in the Kaipara district

Kaipara district ratepayers will be assessed:

- 1. A targeted council services rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each rating unit;
- 2. A targeted land and freshwater management rate assessed on the land value of each rateable rating unit;
- 3. A targeted pest management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each rating unit;
- 4. A targeted, fixed flood infrastructure rate assessed on each rating unit;
- 5. A targeted emergency and hazard management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each rating unit;
- 6. A targeted, fixed regional sporting facilities rate assessed on each rating unit;
- 7. A targeted regional economic development rate assessed on the land value of each rateable rating unit;
- 8. A targeted, fixed emergency service rate assessed on each rating unit; and
- 9. A targeted Kaihū River management rate, based on land area, and differentiated by location and area of benefit as defined in the Kaihū River management scheme.

Ratepayers in the Whangarei district

Whangārei district ratepayers will be assessed:

- 1. A targeted council services rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June, with an additional charge of \$1.73 per separately used or inhabited part of a rating unit to fund the maintenance of the Hātea Channel;
- 2. A targeted land and freshwater management rate assessed on the land value of each rateable rating unit;
- 3. A targeted pest management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 4. A targeted, fixed flood infrastructure rate, assessed on each separately used or inhabited part of the rating unit;
- 5. A targeted emergency and hazard management rate, differentiated by location and calculated on the total projected capital value determined by the certificate of projected valuation of the district at 30 June and assessed on each separately used or inhabited part of the rating unit;
- 6. A targeted, fixed regional sporting facilities rate assessed on each separately used or inhabited part of the rating unit;
- 7. A targeted regional economic development rate assessed on the land value of each rateable rating unit;
- 8. A targeted, fixed emergency service rate assessed on each separately used or inhabited part of the rating unit:
- 9. A targeted, fixed Whangārei transport rate assessed on each separately used or inhabited part of the rating unit; and
- 10. A targeted Whangārei urban rivers management rate differentiated by location and category and set as a fixed amount per each separately used or inhabited part of a rating unit.

4,977	TOTAL COMPREHENSIVE REVENUE AND EXPENSE FOR THE YEAR	4,354	4,779

Section 100 of the Local Government Act 2002 states that a local authority must set revenues at a level sufficient to meet that year's operating costs. Exceptions are permitted under s100(2).

The table below demonstrates the calculations used to determine a balanced budget. Any result zero or greater demonstrates a balanced budget that meets s100(1).

^{**} Note re Property Reinvestment Reserve: Due to the growing volatility in investment markets council is seeking to de-risk its investment portfolio by accelerating investment into property assets. This has no impact on rates but results in larger than planned capital expenditure movements.

Equity represents the total value of the council and its assets and is measured by the difference between total assets and liabilities. Public equity is disaggregated and classed into a number of reserves to enable clearer identification of the specified uses of accumulated surpluses.

The components of equity are:

- retained earnings
- council-created reserves
- asset revaluation reserves.

Reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves can be used to account for revenue and expenditure collected or incurred in relation to specific work programmes. Where the council sets and collects a targeted rate for a specific purpose, the funds can only be applied to that purpose; keeping track of surpluses and deficits of those work programmes in a reserve ensures the council is accountable and transparent.

Where reserves carry a deficit balance, they are deemed to have undertaken internal borrowing from the council's consolidated funds. Conversely, where the reserves carry a surplus, they are deemed to have loaned money to the council's consolidated funds.

About council's reserves

Information about the council's reserve funds held for a specific purpose is provided in the following table:

Reserve name	Purpose	Activities that may be funded from reserve
River and flood infrastructure	 The Awanui, Kaihū, Kāeo-Whangaroa, Kerikeri-Waipapa, Whangārei urban and Taumārere river reserves and flood infrastructure reserves represent accumulated targeted river management rates and targeted flood infrastructure rates collected and unspent in any given year to cover: any future funding shortfalls relating to the maintenance and operation of existing river flood management schemes (river reserves) any future funding shortfalls relating to the development, maintenance and operation of new flood infrastructure schemes (flood infrastructure reserves). This keeps the surpluses/deficits in the appropriate activity separate from other activities. Any deficit balance in these reserves will be restored to a positive balance from future targeted river management and flood infrastructure rates collected from the ratepayers within the area of benefit identified in the respective flood management plans. 	River management
Property reinvestment fund reserve	This reserve was established to represent the proceeds of commercial property sales and acquisitions, and includes the proceeds of a special dividend (capital) payment made by Marsden Maritime Holdings Limited. The reserve represents general funds invested in council's long-term and short-term investment funds that are set aside to be reinvested in income-producing assets, pending the identification of approved property investments.	Economic development
Regional project reserve	This reserve was established to represent funds invested in council's long-term investment fund, and earmarked for approved infrastructure and economic development investments, with a view to stabilising the impact of large, irregular infrastructure projects on council's income and capital requirements. This reserve helps manage and spread the costs of approved infrastructure and economic development investments projects, and is also intended to provide more flexibility around when such large, capital-intensive projects can commence. The income from the reserve represents funds available for operational spend for other activities where needed.	All
Forestry Equalisation fund reserve	This reserve was created to represent accumulated surplus forestry income (after accounting for the cost of any forestry maintenance) arising in any year. These reserved funds are intended to provide future funding for any council activity, with a view to smoothing future rating increases. It is further intended that these reserved funds be used to fund the self-insurance of forestry infrastructure and the cost of forestry operations in non-harvesting years. This reserve is to be maintained at a balance of no less than \$250,000.	All
Hātea River maintenance reserve	This reserve was created to represent a component of the council services rate specifically levied across the Whangārei constituency, which is set aside to ensure funding is in reserve and immediately available if dredging of the Hātea river is required. The funds may be applied to the following: • ongoing maintenance and dredging	Harbour safety and navigation

Reserve name	Purpose	Activities that may be funded from reserve
	disposal of dredged spoil material	
	 providing an annual hydrographic survey of the river. 	
	The reserve is to be maintained at a targeted fund of up to \$400,000.	
Investment and growth reserve	This reserve was created to represent the investment income set aside and held in reserve to fund activities and projects that contribute towards economic wellbeing, in accordance with set criteria.	Economic development
Whangārei and Far North transport reserves	The Whangārei transport reserve and the Far North transport reserve represent accumulated targeted Whangārei transport and Far North transport rates collected and unspent in any given year, to cover any future funding shortfalls of their respective transport services. Any deficit balance in these reserves will be restored from future targeted rates collected from ratepayers in the Whangārei district (Whangārei transport rates) and Far North district (Far North transport rates).	Transport
Emergency services reserve	This reserve represents any accumulated targeted emergency services rates collected and unspent in any given year, and held in reserve to cover any future funding shortfalls of emergency services funding.	Community representation and engagement
Approved carry forwards reserve	Approved carry-forwards are amounts approved to be carried forward from one financial year to the next, to enable specific work programmes to be completed. All carry-forwards are approved by way of council resolution.	All
Economic development reserve	This economic development reserve was established to represent funds held in council's long-term investment fund that are reserved to support Northland's economic development activities, including investment in community infrastructure.	Economic development
Regional sporting facilities reserve	This reserve represents accumulated targeted regional sporting facilities rates collected and unspent in any given year, and held in reserve to contribute to any future funding shortfalls of regional sporting facilities funding. The balance of these reserved funds will initially be utilised to fund a grant to the Te Hiku Sports Hub, which was originally planned to occur in May 2020 but was deferred due to Covid-19.	Economic development
Operational reserve	This reserve was established to represent the term deposits held to ensure the stability of work programmes, employment and council's ongoing, day-to-day operations, by ensuring the portion of annual operating costs that is intended to be funded from gains derived from council's managed funds is in reserve. This will cover any unanticipated loss in council funding arising from adverse economic conditions or volatility in financial markets.	All
Capital subsidy reserve	This reserve represents capital subsidies received from Waka Kotahi NZ Transport Agency that will be used to offset the future costs associated with the Regional Integrated Ticketing Information System.	Transport

Reserve name	Purpose	Activities that may be funded from reserve
Kaipara moana remediation reserve	This reserve represents the shortfall in funding relating to the required contribution to the Kaipara Moana Remediation progam. Any deficit balance in this reserve will be restored to a positive balance from future rates collected. From then on any rates collected over the life of the program will accumulate and be held to repay the borrowing at the end of the loan term.	Kaiapara Moana Remediation Program
Enterprise system reserve	This reserve represents the shortfall in funding relating to the enterprise system. Any deficit balance in this reserve will be restored to a positive balance from future rates collected. From then on any rates collected over the life of the program will accumulate and be held to repay the borrowing at the end of the loan term.	Enterprise System
CDEM joint emergency centre reserve	This reserve represents the shortfall in funding relating to the CDEM joint emergency centre. Any deficit balance in this reserve will be restored to a positive balance from future rates collected. From then on any rates collected over the life of the program will accumulate and be held to repay the borrowing at the end of the loan term.	CDEM Joint Emergency Centre
Vessel replacement reserve	This reserve represents the balance of the borrowing remaining on the replacement vessel for the Waikare, which will be funded from future rates. In addition this reserve will hold rate collected over the life of the vessel to fund the next replacement vessel. any accumulated rate to fund the next vessel.	Harbour safety and navigation

All reserves displaying a deficit balance at 1 July 2022 have an associated targeted rate that will generate income over a certain time period in order to return the reserve to a credit balance.

Financial prudence

The purpose of this statement is to disclose the council's planned financial performance in relation to various benchmarks to enable the assessment of whether the council is prudently managing its revenues, expenses, assets, liabilities, and general financial dealings.
